KEEN COMPETITIONS FEATURE CENTRAL ALBERTA MEET

G.W.V.A. Have Good Weather and Successful Athletic Events on Victoria Day

The Athletic Meet, staged under the auspices of the G. W. V. A., on Victoria Day, was a decided success. While the attendance was not all that could be desired, it was very fair, and those who did attend enjoyed the afternoon's entertainment.

The weather man was in an exceptionally happy frame of mind, and smiled on the occasion with more than average 24th of May weather. The breeze stirred up the dust a little at times, and some people made pertinent enquiries about the watering cart, quite forgetful for the moment at least that it was a holiday and no holiday is complete without annexing a fair amount of grime.

The tug-of-war was specially notable for the vigorous efforts of the I.W.W. to capture the coveted safety razors, but the G.W.V.A., anchored by a couple of our athletic policemen, put the kibosh on their premium hopes and left them with second place (and some sore muscles).

The members of the 75th Battery provided some excellent entertainment in the militia events. Under the direction of Major Lister and Lieut. J. R. Weston, their performance reflected credit on the organization and the people of Red Deer can look forward to some very enjoyable programs from this source in future athletic events.

The Roman Race, a special added attraction arranged by the contestants themselves, Jack Urquhart and Earl Lobb, both of Balmoral district, was perhaps the most thrilling of all. Each of them with two horses, running neck and neck, and standing up with one foot on the back of each horse, they made a complete circle of the track in remarkably good time. It was a very clever performance, and elicited unstinted applause from the audience.

The Girl Guides and the Boy Scouts presented a smart appearance in their parade to the grounds, headed by the Scouts' Band. The members of these organizations entered heartily into their respective competitions.

Following are the results of the athletic events:

70 yard handicap, boys not over 15—Chas. Wright, Norman Botterill.

Half-mile relay race for Scouts — Andrew Lund, C. Wright, G. Becker, N. Botterill, first; Dick Gaetz, Sherrill Weltiver, Len Gaetz, Ralph Lord, second.

50 yard handicap, Wolf Cubs — L. Brewerton, Eric Bellerby.

Potato race, Scouts—C. Wright, L. Gaetz.

Obstacle race, Cubs—P. Wright, R. Dale.

Sack race, boys, open — Wright, H. Brewerton.

Relay race, Girl Guides—L. Nichols, M. Dancocks, N. Stephenson, N. Skene, first; F. Lund, Iris Milligan, R. Steadman, P. Houston, second.

Egg and spoon race, Girl Guides—E. Robinson, M. Dancocks.

Potato race, Girl Guides—M. Dancocks, D. Reighley.

100 yard dash — Stewart (Shady Nook), Murray McKinnon.

220 yard run — Stewart, Johnson (protested).

Quarter mile run—M. Parsons, C. Greer.

Half mile run—H. George, W. Eggen.

One mile run—Whiteside, Doan.

One mile, relay—Firemen—P. Johnson, W. Eggen, F. McBride. Jos. Lowes, first; High School—McKinnon, Parsons, Greer, George, second.

Long jump—McDougall, 17 ft. 5½ in.; Whiteside, 17 ft. 4 in.

Standing high jump — Whiteside, Pye.

Running high jump—Whiteside, 5 ft.; Pye.

Hop, step and jump—Whiteside, 37 ft. 10 in.; Houston, 34 ft. 2 in.

Pole vault—C. Trimble, 8 ft. 6½ in.; M. Hedemark.

Putting-the-shot—G. Nelson, 30 ft. 10 in.; McCady.

Obstacle race—McKinnon, Eggen.

Boys under 12—Geo. Cox, William Parsons.

Tug of war—G.W.V.A.—Robertson, Muir, Reinholt, Jarvis, Townsend, Butlin, Hobson, first; I.W.W.—McPherson, Johnson, McCann, Botterill, Gordon, Whiteside, Teasdale, second.

Militia Events

Revelle race—Austen, Hughes.

Victoria Cross race—Austin, Hughes.

Horseback wrestling—Austin, Heath.

Tug of war, mounted—Sergt. Pace's team.

Balaclava melee—Sergt. Pace's team. Roman race—Jack Urquhart.

START CONSTRUCTION OF GOLF CLUB HOUSE THIS WEEK

Red Deer Golf and Country Club, Ltd., will start the construction of a spacious club house on the new golf course this week. The building will be 42 by 56 feet, with a nice wide verandah of bungalow design.

The greens are in first class shape at the course now, and the fairways are clearing up nicely. The members of the Club are very proud of their new course.

Later on, tennis courts, bowling greens, etc., will be prepared, making an up-to-date recreation grounds, with a very beautiful location.

ERECTING OIL TANKS.

The British-American Oil Co. have started construction of their warehouse and wagon shed, and will have the tanks erected very soon on the property recently purchased from the city near the old railway crossing at the south end of town. P. P. Products are the local agents for the company, and expect to have the new plant in operation in a very few days.

ECKVILLE BREEZES

(From our own correspondent.)

Wednesday, May 24th, being a statutory holiday, some of the young folk availed themselves of their first swim of the season.

The bricklayers are making great headway on Mr. Cowan's new hardware store.

The Rev. J. K. Unsworth, D.D., held a couple of days' mission here, which was well attended. He was assisted by Mr. Dunnington, from Stratford, Ont., in the singing, which was greatly appreciated.

We regret to say that our worthy wood chopper was, we suppose, so dazed at the sight of heaven on the lantern slides, his eyes having given him so much pain ever since.

The Bailey & Rutherford picture show opened here last Tuesday, before a full house. Their next appearance will be June 7th, in "The Devil."

Mr. Mitchell, our new student missionary, arrived here last Wednesday and held his first service Sunday morning.

Jos. Marshall is busy in his garden these days. Joe says there is nothing like having early radishes.

Barnhill, late of the staff of the local bank, is getting fat on buttermilk at the Central Creameries.

John Kimala, our good-natured drayman, believes in scrambled eggs, by the look of the trail.

The crops in the surrounding district have made a great advance since the fine rain Thursday night.

A young gentleman with a grain tank and four horses, on his way through town on Sunday, was greatly surprised to find his horses safe in the livery barn, after having left them standing for several hours.

W. P. Rogers and son motored to Red Deer on Saturday afternoon.

RED DEER WINS BASEBALL GAME AT LACOMBE

Ancient and Honorable Opponent Worsted in Clean Exhibition Game.

It is nearly two years since we had a real game of baseball with our esteemed neighbors, but our hunkies journeyed to the northern town on Monday and managed to demonstrate to the natives there that we love them still by taking them into camp and showing them some of the finer points in batting.

It was a batters' carnival to some extent, as the score of 11 to 9 would indicate. Every man on the Red Deer team made at least one safe hit, and the Red Deer fans in attendance were well pleased with the performance of the youngsters on the team. The boys batted well and played their positions very creditably.

Red Deer pounded Edgington out of the box in the 4th, and played havoc with Woodward's offerings before he managed to retire the side.

Howie Edgington is a promising pitcher, and showed up well in this workout against a pretty good team. Rumor has it that this is the first game that Lacombe has lost this season. For lack of practice, Howie began to tire a little in the 6th, and Percy Smith hurled the last innings.

Red Deer has reason to be proud of its 1922 baseball team. There are no paid men on the lineup, and the boys are out to win in clean, sportsmanlike manner. It is to be hoped that they will have the hearty support of the citizens.

The following box score tells the story of the game:

Red Deer—	AB	R	H	PO	A	E
Grier, lf	6	1	1	2	0	1
G. Dancocks, cf	5	1	2	1	0	0
Sorenson, c	6	1	2	7	1	0
Nelson, 2b	4	2	2	2	3	2
P. Smith, 1b-p	4	1	1	9	0	0
H. George, rf	4	1	2	1	0	0
Taylor, ss	4	1	1	0	0	0
McBride, 3b	4	2	1	0	0	1
H. Malcolm, p	4	2	2	1	3	0
	39	11	13	21	9	4

Lacombe	AB	R	H	PO	A	E
Humphrey, c	5	1	0	7	2	0
Tier, ss	6	1	1	1	2	0
Unwin, 2b	4	2	1	0	1	1
Green, 1b	5	2	3	7	0	1
Parker, rf	4	1	2	1	0	2
Edgington, p	2	0	0	1	2	0
Ritz, lf	4	2	1	1	0	1
Kremer, 3b	3	2	0	2	0	0
Bullis, cf	4	0	1	2	0	0
Danner, 2b	3	0	1	0	4	1
Woodward, p	3	1	0	1	0	1
	36	9	10	21	8	5

Score by innings—

Red Deer	1	2	0	7	0	1	0	—11	
Lacombe	1	1	2	0	0	3	2	—	9

Summary: Three-base hits, Ritz; two-base hits, George, Malcolm; stolen bases, Unwin 2; base hits, off Malcolm (6 innings) 8, off Smith (1 innings) 2, off Edgington 3 1-3 innings) 5, off Woodward (3 2-3 innings) 3. Struck out, by Malcolm 6, by Smith 1, by Edgington 3, by Woodward 5. Bases on balls, by Malcolm 4, by Edgington 2; hit by pitcher, by Malcolm 2; left on bases, Red Deer 9, Lacombe 12. Earned runs, Red Deer Lacombe 12.

Umpire, McLear.

ALBERTA NATURAL HISTORY SOCIETY

The regular meeting will be held in the City Library at 8 p.m. tonight (Wednesday).

A series of slides illustrating color protection in birds and animals has been loaned by the University Extension Department for this meeting.

LOCAL NEWS

W.C.T.U. sale of home cooking and ten cent tea, Saturday, June 10th.

Campers, see the "Handy-Andy" Camp Cook Stove with oven, at McPherson Bros.

One word might have saved her. You will see why in "Hall the Woman" at Rex theatre, Monday and Tuesday.

Jos. B. Gaetz left on Monday for Calgary, where another operation will be performed on his arm at the Col. Belcher Hospital.

In writing to The News, Jim Beatty, formerly of Red Deer, now of Lansdowne, Ont., asks to be remembered to all the boys.

Ald. C. T. Elline is leaving to-day for Spokane, where he expects to spend the next few weeks, at least, on business interests.

B. J. Wade underwent an operation at the Memorial Hospital on Saturday evening, and is doing as well as could be expected.

Wm. Postill, Trochu, was the guest of Commissioner and Mrs. A. T. Stephenson for a few days last week, returning home Sunday.

C. J. Jarjour, manager of the E.P. Ranch, Hilladown, is enjoying a visit from his mother, who arrived from Montreal on Saturday.

Mrs. A. Melstrom and family left on Monday for Calgary, where they will reside. Mrs. Melstrom's sale last Saturday was quite successful.

"It is one medicine that does all that's claimed for it." Thousands have said it about Tanlac and so will you if you try it. Gaetz-Cornett Drug & Book Co.

Richard Gummow, Willowdale, left on Monday for Mayo Bros. Hospital, Rochester, where he will undergo treatment. Mr. Gummow has not been well for some time past.

Mrs. (Dr.) Eber Crummy and Mrs. L. J. Porter went to Edmonton on Monday to attend the Provincial Convention of the W.M.S. of the Methodist Church being held there this week.

Hon. J. E. Brownlee, Attorney-General for Alberta, was in the city for a short time Saturday evening, motoring home to the Capital from Calgary, where he had been spending a couple of days.

Mr. and Mrs. McIntyre, Seattle, Wash., are visiting their son, F. D. McIntyre, Parkvale, and his family, for a few days. Mr. and Mrs. McIntyre will also visit in Edmonton, their former home.

The public are invited to the free Community Picnic on Mr. Dalling's farm, 2 miles west of Edwell School, on Wednesday, June 7th. All kinds of sports, including bucking contest, horse races, football, etc.

H. J. Snell was in Calgary on Monday in pursuance of his duties as President of the Alberta Optometrical Association. The annual convention of that organization will be held in Calgary a couple of weeks hence.

The regular monthly meeting of the Methodist Ladies' Aid will take the form of a social afternoon, to be held in the Sunday Schoolroom of the Church on Thursday, June 1st, at 3.30. All ladies in the congregation are cordially invited to be present.

Sydney B. Jones, of the High School teaching staff, received word last evening from Spring Hill, N.S., that his mother was sinking fast, and that her passing would be only a matter of hours. Mr. Jones will have the sympathy of his friends and acquaintances here.

Mr. and Mrs. J. F. Dodge returned Wednesday from their honeymoon trip to the Pacific Coast. After spending a few days with Mrs. Dodge's parents, Mr. and Mrs. D. W. McKinnon, Clearview, and other friends, they left Monday on their way to Spirit River, where they will reside.

There was quite a flurry this week over the road at the top of the Hospital Hill running toward the Scott estate. The purchaser of adjacent land got the impression that the angling road survey had not been registered and proceeded to take possession of the thoroughfare. Wiser counsels prevailed, however, and he decided to move his shack on to his own property and put the fence where it belonged.

The many friends of John A. Carswell, editor of The News, will regret to hear that he has not been well during the past few days, and has found it necessary to go under the doctor's care. The steady grind of newspaper life for the past 16 years has been telling on his constitution, and it will be necessary for him to recuperate for a time.

A good deal of interest was manifest in the demonstration of Maytag Washing Machines in the W. E. Lord Co's windows the latter part of last week. C. W. Gilson, manager for the Maytag Co., Calgary, and W. F. Rundle, Edmonton, were in charge of the demonstration. Power washers are now recognized as among the most valuable labor savers available for the home.

President W. J. Botterill of the Board of Trade, and Judge Mahaffy, are meeting with good success in their canvass for members for the Board. The prospects are that at least as many members will be secured as last year. Mr. Botterill is expected to address a mid-day luncheon of the Rocky Mountain House Board of Trade on Thursday. This being the first of a series of luncheons of this nature, the neighboring townsmen were anxious to hear from the President of the Red Deed Board of Trade, which has established a reputation for itself as an active organization.

SCHOOL SPORTS TODAY

The weather man exerted his authority and vetoed the public school sports that were to have been held last Friday. The sports will be held this afternoon on the Central School grounds—if the weather man permits. The public are invited.

BASEBALL SEASON OPENS WITH CLIVE HERE NEXT MONDAY

All Fans Will Welcome the Return of the Open Season in Baseball.

Great thrills! Mr. Umps will open wide his mouth, and with an air of authority will start the ether vibrating with stentorian tones, "Play Ball."

All this and more will happen at the ball grounds next Monday evening. We have had our city league games, 'tis true, but the blood does not begin to tingle till we feel the thrill of administering a defeat to a neighboring town.

We have a real home brew ball team, one to be proud of. They have defeated Lacombe, and they have defeated Lacombe. Next Monday they will——play Clive.

The game will start at 6.45. If you are a ball fan borrow or steal two bits, and hike away to the exhibition grounds. Then, root for Red Deer. Let's have a real old time opening game. Never mind if you are hoarse next day. You'll get over it.

CENTRAL ALBERTA FOOTBALL LEAGUE

Competition Starts Today for the Snell Shield

The following schedule has been prepared for the Central Alberta Football League, comprising Red Deer, Ponoka and Innisfail:

May 31—Red Deer at Innisfail.
June 7—Innisfail at Ponoka.
June 14—Innisfail at Red Deer.
June 21—Red Deer at Ponoka.
June 28—Ponoka at Innisfail.
July 5—Ponoka at Red Deer.

For the game today the following team will represent Red Deer:

Goal, Galbraith; backs, Cotton, Haste; halves, Jones, Caswell, Eggen; forwards, Reid, Murray, Carswell, Houghton, Lowe. Substitutes, Rodd, Lowes.

In the city league the Firemen vs. G.W.V.A. game, scheduled for Thursday evening next, has been postponed. All players and any who are willing to lend a hand are asked to meet at the new athletic grounds that evening to lay out the field and get it in shape for playing.

All indications point to a great day here on the 1st of July, when the competition will be pulled off for the Citizens Cup. Several Calgary and Edmonton teams are expected to compete.

AT THE REX THEATRE

Tonight and Thursday—"Find the Woman."

Friday and Saturday—"Thunderclap," a wonderful picture in 9 reels.

Monday and Tuesday—"Hall the Woman," full of human interest. Premier showing for Alberta.

The Rex is the home of good pictures.

DAIRY PRODUCTS CO. HAVE UP TO DATE CREAMERY NOW

Work Nearly Completed on New Building.

A visit to the Dairy Products Creamery is to get a glimpse of modern design and equipment in creamery construction. With its cement floors and white walls and ceilings the building gives the immediate impression of being clean and sanitary.

The plant is arranged so that the cream is received on a platform, where it is weighed and graded. It is then emptied into the pasteurizers on a floor some 3 or 4 feet lower. After passing through these machines, it is passed to the churns, which are located on a still lower floor, where the refrigerating plant is also located.

There is a separate wash room for cans and utensils. The office is kept in the old location, and the old main floor will be used for a storeroom. The boiler room floor has been cemented and a new coal bin built.

The exterior is receiving some attention. Boulevards are being prepared, and trees will be planted, all conducing to make this a very creditable and attractive plant. Mr. Trimble is well pleased with the volume of cream coming in, but assures us they can handle still more.

CRICKET.

The new creases near the creamery on the west side of the C. P. R. tracks are in good condition now, and a good deal of interest is manifest in the game.

The C.P.R. team from Calgary will be here for a match with the local cricketers on Saturday. Other teams are expected from time to time.

There will be a practice this (Wednesday) evening at 7 p.m. The following members are requested to turn out: Briscoe, Steward, Morris, Streatfield, McComas, White, Thompson, Orme, Lavender, Nelson, Lister, Caswell, Heywood and Bowie. The team to play against Calgary C.P.R. will be selected after the practice.

Junior Choir tea cent tea Saturday.

LOCAL NEWS

Alexandra Club dance, Friday, June 9. Bone's Orchestra.

Before you scrub that daughter, see "Hall the Woman," Monday or Tuesday.

Buy home cooking at the Junior Choir sale, Saturday, J. E. Welton's office, 3 to 9.30.

Campers, see the "Handy-Andy" Camp Cook Stove with oven, at McPherson Bros.

The Hospital needs the money. Patronize the Alexandra Club dance on Friday, June 9.

F. B. Warner and family left last Wednesday for Bonner's Ferry, Idaho, where they will reside.

Mrs. F. B. Moore, Valley Centre, had a visit from her father, F. H. Hunt, of Olds, on Victoria Day.

The Balmoral Ladies' Hospital Aid will meet at the home of Mrs. C. L. Northey, on Friday, June 2nd, at 2.30 p.m.

E. Ainsworth, government road foreman, and other government officials are planning to open permanent offices in Red Deer soon.

Rev. Dr. Huestis returned home last Wednesday, accompanied by Mrs. Huestis, who has been visiting in California during the winter.

J. W. Woods, of the Imperial Bank, formerly of Red Deer, was renewing acquaintances in Red Deer last Thursday on his way to Edmonton.

Supt. Fox, of the Calgary Division, Supt. Jamieson, of the Edmonton Division, and other officials of the C.P.R. were in the city yesterday.

All ladies interested in the Girl Guide movement are cordially invited to meet at the Scout room in the Alexandra Hall on Thursday evening, at 8.30.

Do not forget the ten cent tea and sale of home cooking on Saturday at J. E. Welton's office. The boys and girls of the Junior Choir will appreciate a visit.

For a real good time, go to the Alexandra Club dance on Friday, June 9. Bone's Orchestra. Refreshments. Proceeds in aid of the Memorial Hospital.

The regular monthly meeting of Poplar Grove Local, U.F.A., will be held on Friday evening, June 9, at 8 o'clock sharp, at the home of Jas. Atkins. Note the change of date.

The regular meeting of the Poplar Grove U.F.W.A. will be held Friday evening, June 9th, at 8 o'clock, at the home of Mrs. Atkins. Instead of June 21st. Please note change of date.

Ald. Best, W. A. Cassels and other citizens are making preparations for their summer sojourn at Sylvan Lake. The ice went out of the Lake a week ago, and some of the small boys were bathing next day.

There will be a meeting of the Boy Scouts' local association in the Scout room, basement of Alexandra Hall, at 8.30 p.m., Thursday, June 1. Anyone interested in the Boy Scout movement is invited to attend.

The Memorial boulevard is coming along nicely. Several of our prominent citizens demonstrated their ability to handle the shovel, shovelling earth, a few evenings past. More volunteer work will be acceptable.

"Men and their sons first!" Florence Vidor, great actress and beautiful woman, explodes a selfish man-made doctrine in Norman H. Ince's greatest achievement, "Hall the Woman," coming to the Rex theatre, Monday and Tuesday.

Fred Lund has just received another carload of Fords. This makes 18 cars that Fred has taken delivery of this season so far, and speaks well for the prosperity of the district, the utility of the car, and the selling ability of the agent.

C. C. Gamble, of the Bank of Montreal, has just completed the inspection of the Camrose branch of old Merchants Bank for the transfer to the Bank of Montreal. This makes the eighth branch that Mr. Gamble has inspected recently.

The clans have been gathering the past two or three days for the Alberta Conference of the Methodist church, being held in Edmonton. Rev. A. C. Farrell and others well known in Red Deer have passed through on the northbound trains.

Brody's Shoe Store reports a very good run of business over the week end. Mr. Jas. Brody, Edmonton, is in charge of the Red Deer branch store, convinced that this district is big enough for a store of this kind, under experienced management. Mr. Brody is an energetic Russian man, and is intent on making Red Deer his home.

The Hospital Ladies' Aid wish to thank all those who helped so generously to make the tea on May 20th such a success. They also wish to thank the G.W.V.A. for contribution of $58.00, proceeds of Easter dance. The Society is badly in need of funds to provide necessities for the Hospital, and the officers will appreciate it if all members who are in arrears will send their dues in to the Secretary, Mrs. Wm. Greig, as soon as possible.

Miss Minnie Hewson is receiving congratulations on passing her examinations with high standing and graduating as a nurse from the Royal Alexandra Hospital, Edmonton. Mrs. W. Hewson, Mrs. A. B. Mitchell, Nurse Mitchell and Miss Leola Smith attended the graduation exercises a few days ago. Miss Hewson is enjoying a well-earned rest at her home here after her three strenuous years of training. The News also extends congratulations.

GOVERNOR-GENERAL of CANADA WILL BE HERE SEPT. 15

His Excellency Lord Byng of Vimy Has Planned a Two hour Visit to Red Deer.

Mayor Collison is in receipt of a letter from Capt. O. H. C. Balfour, secretary to His Excellency the Governor-General, outlining the plans for the visit of the Vice-regal party to Red Deer on September 15th.

The date is somewhat later than had been expected, still there is scarcely a doubt but that the unveiling of Red Deer's magnificent Soldiers' Memorial will be the chief item on the local program for the occasion.

Probably not another living man stands as high in the esteem of the Canadians who served overseas, as Lord Byng of Vimy. He is the one man in the whole Dominion of Canada eminently fitted to unveil the Memorial.

It is a happy coincidence that the Schools will be re-opened by that time, making it more feasible to assemble the boys and girls for the occasion. It is to be hoped that they may be heard in massed chorus singing the well-known patriotic airs.

Following is a copy of the letter received by His Worship the Mayor, which is self-explanatory:

Government House, Ottawa,
May 23rd, 1922.

Dear Sir:

I am desired by His Excellency the Governor-General to say that he proposes to visit Red Deer on Friday, September 15th, arriving at 2.30 p.m. and leaving at 4.30 p.m. He will be accompanied by Her Excellency the Lady Byng of Vimy, his sister, Lady Margaret Boscawen, and four members of his staff.

If this is convenient to you, I should be greatly obliged if you will let me know, at the same time forwarding a proposed programme for Their Excellencies' visit, and a copy of any address should it be proposed to present one.

I am to add that His Excellency is particularly anxious that no expense should be entailed by the Municipality on account of his visit, and he hopes that arrangements will be made so as to enable him to meet as many of your citizens as possible.

Yours faithfully,
O. H. C. BALFOUR, Captain,
Secretary.

His Worship the Mayor of Red Deer, Alberta.

PENHOLD NOTES

The ladies of the W. I. were the guests of Mrs. G. D. Martin for their regular meeting last Thursday. There were a good number present, and a pleasant social afternoon, with community singing, was spent by all. There was much clapping of hands when the president announced that the debt on the hall is now under $1,000, being $875. Two new members joined.

We are glad to see Mrs. Douglas in our midst again.

Lyle McDougall visited his parents over Sunday.

Rev. Marr, of the Bible Society, was the speaker at the Presbyterian church on Sunday evening. After an earnest address on his work, he passed envelopes for subscriptions to the cause. The same collectors, viz., Misses Johnston, Dixon and McAllister, were re-appointed for this year.

Norman Stewart went to Calgary last week and returned with a new Overland. His sister, Mabel came back with him in the car.

Dan McGillivray has purchased the house owned by the A. P. Elevator and occupied by Mr. Boote. The company intend building on their lot directly south of it.

We understand that Walter Wells has bought the house owned by Mr. Joe Smith, near Henderson's.

Don't forget the dance on Friday. The Dramatic Co. showed their play, "The Minister's Bride," at Blackfalds, last Friday, and report themselves well pleased with their reception.

The junior school team went to Blackfalds the same day to play baseball, but were badly beaten. The Blackfalds team was much larger, and it being their first real game they rather lost their heads. Better luck next time, boys.

Frank Eastman is building a new garage right beside his livery barn.

Teasdale & Bennett, of Red Deer, have nearly finished the new cement sidewalk.

The new bank manager and his wife arrived on Friday.

Fairlands has voted to try consolidating with Penhold school for one year.

CHAUTAUQUA ASS'N ORGANIZED

Proceeds of the Red Deer Chautauqua, June 24-30, Will be Divided Between the Soldiers' Memorial and the Memorial Hospital.

Members of the Red Deer Chautauqua Association, having charge of the arrangements for the big six-day Chautauqua program that will be presented here Saturday, June 24th, to Friday, June 30th, inclusive, met in John Malcolm's office Saturday evening.

Miss O'Neill, "twenty-day worker" for the Dominion Chautauquas, was in attendance and gave some first-hand information regarding the talented artists that will appear on the local platform.

The following officers and committees were appointed:

President—H. F. Kenny.
Sec.-Treas.—W. E. Trueman.
Advertising Committee—F. P. Galbraith and H. F. Kenny.
Ticket Committee—W. E. Trueman, chairman; E. M. Smith, Jas. Comer, J. J. Gaetz, Dr. C. W. Sanders, Roy Malcolm and Mrs. Jas. Murphy.
Grounds Committee—Fred Lund, chairman; J. Malcolm, L. Kennedy, L. McLean and Jno. Teasdale.

It was decided that the proceeds of the Chautauqua, over expenses, would be divided equally and donated to the Soldiers' Memorial Fund and the Memorial Hospital.

A general meeting of the Association will be held on Saturday evening, June 10th, and the sale of season tickets will proceed immediately after that date.

The regular meeting of the Ladies' Hospital Aid will be held in the City Hall on Tuesday afternoon, June 6, at 3 o'clock.

A special meeting of the Band will be held in the Band room on Friday evening at 8 p.m. All members are earnestly requested to be present.

The Woodland Dairy, Edmonton, claim that The News was slightly misinformed in regard to the percentage of high grade cream being received at their creamery. They say that the proportion of No. 2 cream is less than 5 per cent. of the total instead of 60 percent. The News is very glad to note that the cream is grading higher than we had feared.

Prof. Tangier, who visited Red Deer last summer, and who has been operating in Winnipeg as Dr. Tangier, appears to have gotten into the bad graces of the police of that city, being suspected of bigamy, etc. He has made a rather hasty departure from Winnipeg, leaving a young wife bereft of the $2300 that she had when she married Tangier at Saskatoon this last winter.

LADIES' AND CHILDREN'S STORE

Attention is directed to the Introductory Sale advertised in this issue by Mrs. Kate Morris, Ross St. West. Mrs. Morris has had extended experience in the Old Land in this line of business, and intends to specialize in baby linen eventually. At present she is handling assorted lines of ladies' and children's wear. Mrs. Morris aims to give up-to-date service in these departments and solicits an inspection of her goods by the ladies of Red Deer and district.

FORMER RED DEER PRINTER SUICIDES

(Bassano Mail)

O. S. Love, a resident of the town for a year and a half, committed suicide Thursday morning by cutting his throat with a razor. It is believed he was partially insane at the time. His wife had stated a day or two previously that she believed he was going insane, and had left with her children for Montreal, where she has two brothers. The day she left Love received an offer of a job at Alliance, and had arranged to go there and work to earn sufficient money to go east. He had been out of work for some time, and his wife claimed could not support her. Love's mother lives at Lacombe, and he has also a sister and brother living.

Deceased was employed on the Red Deer Advocate about 1915 and 1916, and lived there for a time. Prior to that time he had been employed by the Western Globe, Lacombe. He worked on the Didsbury Pioneer a couple of years ago. He was married while he lived at Lacombe.

NEW PASTOR AT BAPTIST CHURCH

The Baptists of Red Deer and Poplar Ridge turned out in good numbers on Sunday last to welcome their new pastor, Mr. H. P. Olsen, B.A., who has recently graduated from Brandon College, Manitoba. Mr. Olsen is not altogether new to this province, for during the past three summers he has held student pastorates in northern Alberta.

The Baptist people are to be congratulated upon having such a man as their minister, for he is a zealous, consecrated and qualified man. It can be confidently asserted that the Baptist church will not be the only gainers, for Mr. Olsen will undoubtedly add considerably to the religious and moral life of this city.

CHURCH NOTICES

St. Luke's (Anglican) church. Sunday next is Whit-Sunday. Services as follows: 11 a.m., Matins and Holy Communion; 2.30 p.m., Sunday school; 7.30 p.m., Choral Evensong. The monthly meeting of the Vestry on Saturday next, May 3rd, in the Vestry.

Knox church, June 4th—Public worship at the usual hours, 11 a.m., Dr. C. H. Huestis will give an address at this hour. 2.30, Sabbath school. Evening subject: "Was Jesus original, why has He a right to make so high a claim upon our life?" Problems of youth series.

Balmoral school house, June 4th—All the people of the district are invited to public worship at 2.30 o'clock.

Christian Science Society, Michener Block—Sunday service, 11 a.m.; Sunday school, 12 o'clock; Wednesday; testimonial meeting, 8 p.m. Free reading room and lending library, Michener Block. Open Tuesdays and Saturdays from 3 to 5 p.m.

Stop talking about your troubles. Take Tanlac. Gaetz-Cornett Drug & Book Co.

Campers, see the "Handy-Andy" Camp Cook Stove with oven, at McPherson Bros.

FOOTBALL

Thurs., June 1—Firemen vs. G.W.V.A.

SOLDIERS LEAVE FARMS; NO LOSS TO GOVERNMENT

Government Disposes of Land at Advance, But Loses on Livestock.

Ottawa, May 26.—Further official figures available with reference to the abandonment of farm holdings by soldier settlers show, it is claimed, that the farms re-sold by the government to other settlers, old soldiers and civilians, have shown appreciation of $37,709. The number of farms re-sold on which financial adjustments are complete, is 532.

The amount invested in land and permanent improvements was $1,651,237 and the amount received on re-sale $1,862,334, showing a capital appreciation of $201,096. On livestock and implements the amount invested was $539,553, and the amount received on re-sale $376,466, a loss of $163,386. The total capital surplus, therefore, was $37,709. There are refunds due to the settlers on these re-sold lands amounting to $73,242. There are yet to be re-sold 1,820 abandoned farms.

METHODIST DISTRICT MEETING

At the semi-annual Red Deer district meeting of the Methodist church at Carstairs on Tuesday and Wednesday, with Rev. Geo. Webber, Olds, in the chair, Rev. J. G. Goddard, Innisfail, was appointed secretary, Rev. Parkes, Westervale, journal secretary, and Rev. H. S. Dougan, Red Deer East, statistical secretary. The prevailing economic conditions had affected the finances to some extent as outlined by the reports of the individual churches, but the showing generally was good. Several discussions took place on Evangelism, Ritual, etc., and resolutions on several lines of procedure will be sent on to Conference. Rev. Dr. Crummy preached the sermon in the evening to a large congregation, and the thanks of the district meeting were extended to him by resolution for his inspiring message. Rev. J. McDonald, Airdrie, was appointed to the Stationing committee, and G. W. Smith, M.P.P.; Jas. Youmans, F. W. Galbraith, H. E. Goodacre, Jos. Smith were among the lay delegates appointed to attend conference at Edmonton next week, with R. L. Gaetz one of the four alternates. The Carstairs people were most heartily thanked for their hospitality.

TUBERCULIN TESTING

A discussion which took place recently in the House of Commons revealed the fact that the cities and towns of Canada do not take advantage, to the extent they should or might do, of the opportunity offered by the Dominion Department of Agriculture, to have the herds supplying milk or cream tested for tuberculosis by officials of the Health of Animals Branch. By order-in-council passed in April, 1917, it is provided that, on application to the Veterinary Director-General, any city or town can secure this service on condition that the dairies supplying the milk or cream are licensed and conform to the standard. It is further understood that, two years after the first test, the sale of unpasteurized milk or cream in the applying city or town shall be prohibited, unless the veterinary inspector can certify that the dairy herds contain no reactors and are free from tuberculosis. These conditions being agreed to, an inspector or inspectors will be sent to test all the cows furnishing milk and cream to the city or town concerned.

EX-STUDENTS OF OLDS SCHOOL OF AGRICULTURE TO HOLD RE-UNION.

The second annual mid-summer reunion of the Olds School of Agriculture Alumni Association will be held on July 21st. Ex-students from all parts of the province will gather at Olds on that date to renew friendships made during the period they were students; to discuss matters affecting their Alumni Association and to gather data and information respecting experiments being conducted on the Experimental Farm.

An attractive programme is being arranged, and those who attend are assured of a busy day.

The Re-union will close with a social and dance to be held in the Assembly Hall of the school building.

Friends of ex-students; any who are contemplating a course at one of the agricultural schools, or any persons interested in agricultural education will be made welcome.

JUST ENOUGH

"Many people at the opening game, Sam?" asked his employer.

"Yessah, a heap o' folks, Mistah Brown. An' you jes' oughter heerd 'em when de players came onto de field."

"They were tumultuous, were they?"

Sam hesitated and looked rather dubious. "Well, sah," he replied, "Ah wouldn't 'zackly say dey was too multuous, Mistah Brown, but dey was multuous enough, sah—dey was multuous enough."

FLIRTS ARE ONLY TOOLS OF COMPLEX

Why do girls flirt?

Often the question has been raised by despairing swains, frantic husbands and irate fathers and mothers.

Now the real truth is out. A girl flirts because she has an inferiority complex! Here we have something to put our teeth in.

This explanation comes from Andre Tridon, who has written several books on psychoanalysis, and who knows all the complexes by their first names.

"The inferiority complex is developed in childhood," he says. "The little girl in school, not particularly apt, soon believes she is mentally inferior.

"The feminine instinct, which can always be relied on, warns her that if she is ever going to attract attention it must be by some other means than her scholarship and mental attainments.

"Then she begins to draw attention to herself by her curls or her engaging smile or some physical attribute. And another flirt, gold-digger, vamp or siren is on the way.

"As she grows older her complex matures. Sub-consciously, she still believes she is inferior mentally. But she thinks if she can always be surrounded by men who seem to be madly in love with her, no one will notice this. She won't even notice it herself.

"She needs the constant assurance she is being admired and that she can charm men. She flirts because that is her way of getting what she must have."

"With strong types, the inferiority complex spurs the individual to greater mental activity," Mr. Tridon explains.

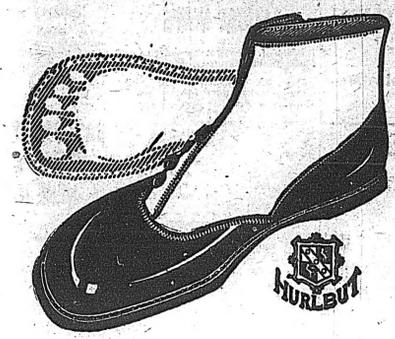
"The child who realizes she may not be a beauty, for instance, develops a charm of manner, and accomplishments that make her as much sought after as if she were a beauty.

"A woman who feels herself inferior socially often develops into a splendid business or professional woman.

"The inferiority complex and a negative personality make a flirt or a freakish person of some kind. The inferiority complex and a positive personality make a social leader, an artist, a business or professional woman."

So now, Cleopatra, Helen of Troy, and the rest of your women who made history by your flirtations, we know why you did it! Your power started when you couldn't get your lessons.

After that you were merely the tools of your complexes.



Mothers!

A Question for Mothers with moderate purses —and a sincere answer by the Makers of the Highest Quality Shoe for Children

Do Hurlbut Shoes really cost more?

These are the points of superiority of Hurlbuts that distinguish them above all other shoes for children:—

- Correct Shape for growing feet
- Broad Extended Sole to protect uppers
- Flexible— no tacks, no ridges
- Cushion Soled from heel to toe
- Ventilated for comfort and cleanliness
- Sturdy Grace and refinement of line

WHEN you go into a store and ask for Hurlbut Shoes you may feel that the price seems high. You may be tempted to seek an apparent saving by buying shoes at less than Hurlbuts cost. But if you do, you will be disappointed later on, and will surely resolve never again to buy a cheap shoe.

Here is the true situation: Hurlbut Shoes *do* represent the very highest quality in a shoe. Hurlbut Shoes will last two or three times as long as inferior shoes, and they are scientifically designed to meet the special requirements of children's feet. That is why thousands of mothers all over Canada prefer to pay the higher price for Hurlbuts.

The point we want Mothers to thoroughly understand is that the selling price of Hurlbut Welted Shoes is always as low as it can be for such a shoe. The high price of Hurlbuts is due alone to the fact that such quality can not be produced for less. So long as we maintain — and we shall always maintain—the quality of materials, design and workmanship, it is impossible to sell Hurlbut Shoes at any lower cost. The very highest quality of goods we can obtain goes into their makeup. And, as prices of raw materials advance, we do not substitute with a cheaper kind.

Every Hurlbut Shoe has a standard, and as we can't reduce the standard we must pay more for our raw materials, labor, etc., in order never to *vary* from this standard. So that, while mothers are required to pay more for Hurlbuts at the time they are bought, the cost spread over the time they last makes Hurlbuts cheapest in the end.

Compare Hurlbuts with the life of any pair of ordinary shoes you have ever bought—and you will see that Hurlbut Welted Cushion Sole Shoes represent the-lowest-price-per-day's-wear of any shoe made for children.

IMPORTANT NOTICE TO FARMERS

It Pays to Inoculate the Various Kinds of Legume Seed. Cultures May Be Obtained at 25c Each.

At the Claresholm School of Agriculture cultures for the inoculating of the different kinds of legume seed may be obtained by applying to the Principal. It is a well established fact that legumes require certain kinds of bacteria to produce the most vigorous growth of stems, leaves and seed. In order to secure the necessary kind of bacteria in the soil in which a particular kind of legume is to be grown the inoculation of the seed with the pure culture is recommended. From the first of April until the end of June these cultures are prepared for the inoculation of alfalfa, field or garden peas, alsike, white sweet clover, white Dutch clover, red clover and beans. Complete instructions for inoculating legume seed are supplied with the cultures. A charge of 25c is made for each bottle, which contains sufficient bacteria to inoculate sixty pounds of seed. All orders accompanied by postal orders should be directed to the Principal of the School of Agriculture, Claresholm, Alberta.

NATURAL RESOURCES BULLETIN

Issued by Publicity Commissioner, Government Buildings, Edmonton.

NATURAL RESOURCES

Pointing out that the Alberta government might not be any better off for a few years at least with the administration of its own resources on its hands, and also setting up a very definite claim for compensation for certain land alienated by the Dominion government prior to 1905, Premier Greenfield has issued an official statement on his negotiations with the government at Ottawa during the recent conference with reference to the transfer of the natural resources. The official statement is as follows:

"Representatives from the three Prairie Provinces met in Ottawa on April 19th at the invitation of Premier W. MacKenzie King, to discuss the natural resources question, following his letter of February 19th. The first few sessions were taken up largely in an effort to define certain general principles to serve as a basis for negotiating an agreement. For obvious reasons we allowed the Manitoba and Saskatchewan representatives to take the lead in the discussions during the first few sessions.

"On account of approaching elections in Manitoba, Premier Norris did not feel authorized to continue negotiations after receiving from the Dominion government the general statement already published in the daily press. We did not consider it advisable to become a party to this statement, partly because we were prepared to continue negotiations in the hope of reaching a definite agreement, but mainly because we did not wish to agree to any statement which might be construed as stopping us from any consideration of alienations of natural resources prior to the formation of the province in 1905.

"As there was a clear understanding between the provincial representatives that each province should, at any time, be free to act independently if thought advisable, we remained a few days after the Manitoba and Saskatchewan representatives had left for home to see if any basis of compromise could be found which would be satisfactory to this province.

"The first important point of difference arose from the insistence of certain members of the Dominion government that no consideration whatever should be given to alienations or dealings with the natural resources prior to 1905, it being urged that at that time a settlement had been reached behind which we should not go. The importance of this question to the province may be gathered by a reference to one item, viz., lands alienated for railway purposes. Of a total of 13,041,729 acres granted from within the present provincial boundaries as subsidies for railway construction, 10,960,105 acres were alienated a few years prior to 1905. Of this amount approximately 5,440,000 acres were granted for railway construction entirely outside of the province. Had the first petition for provincial autonomy been granted in 1900 we would now clearly be entitled to some consideration for these lands. In view of the fact that these lands were selected throughout the province and carried with the patents all mineral rights, it becomes of considerable importance that any negotiations for the return of the resources should not be limited to the period since 1905, and we felt obliged to make a very positive claim for compensation for these lands at least.

"The second difficulty arises from the fact that there is very little knowledge of the real benefit to be derived by the transfer of the resources There seems to be a general exaggerated idea, not only of the wealth of our resources, but also of the immediate benefit to be derived by the province from the acquisition. The result is an impatience on the part of some to any suggestion that past dealings with the resources should be considered at all and the insistence that we should be contented to take over the remaining resources and give up all the present subsidy without any compensation for what over for any resources hitherto alienated.

"The figures obtained from the Department of the Interior for the year 1919-20 (which may be taken as an average year) show as follows:

RECEIPTS

Lands	$ 782,000
Timber	156,380
Grazing	90,000
Forestry	49,580
Mining, including coal sales and rentals	310,177
Royalty	181,642
Petroleum	160,000
Dom. Parks	75,783
Total	$1805,562

EXPENDITURES

Civil government	$ 493,044.79
Immigration	520,414.34
Geodetic Survey	19,962.18
Dom. Lands Salaries	271,812.30
Dom. Lands Surveys	323,232.12
Protection of timber	314,571.17
National Parks	230,749.55
Water Powers	41,684.44
Irrigation	307,943.66
Maps	12,070.12
Cost of Litigation	1,406.10
Total	$3438,790.67

"Omitting as being purely Dominion matters all items of expenditure excepting Civil Government, Dominion Land Salaries, Surveys and Protection of Timber, there still remains in these four items an expenditure of $1,304,312, as against a revenue of $1,805,562, or a balance somewhat less than the present subsidy. Admitting that we should be able to administer the resources more economically than the Dominion Government, there would still be large demands for development work and the organization of a department in the Civil Service, so that it is very doubtful if, for a number of years, the government would be in a better position by the acquisition of the resources than it is with the present subsidy.

"Throughout the discussions Premier King exhibited the most earnest desire to arrive at some basis of settlement of this long standing problem, and to effect such a settlement, we believe, would be willing to give a very generous consideration to the claim of the Western provinces. Like his predecessor, however, he must keep in mind the practical question of what settlement would receive the endorsation of the house, so that the most serious practical difficulty in solving this vexed question is the attitude of the representatives of the Eastern provinces who feel they have an interest in the whole question.

"We believe, however, that very decided progress was made during the conference at Ottawa, and the Premier has certain suggestions under consideration which, after he has conferred with his government, may lead to some basis of settlement which could be entertained by this province."

EXAMINER'S REVIEW OF PROVINCIAL MARKETS

Calgary, May 25.

Cattle—

Beef—Calgary receipts during the past week have been light, and prices are hard to quote during past few days. Choice steers, $6.50 to $7; good, $5.50 to $6.25; medium, $4.50 to $5.50; common, $3 to $4.50. She stuff lower, with choice cows, $4.75 to $5.25; good, $4 to $4.50; medium, $3.25 to $4; common, $2 to $3; canners, $1 to $1.75. Good calves would bring up to $8. Business in feeders and stockers light, and prices look weaker; choice feeders, $4 to $5; stockers, $3 to $4.

Beef—Edmonton has been getting some good cattle this week-end, and tops made $7.50, with good lords, $6.50 to $7.25; good, $5.50 to $6.25; medium, $4.50 to $5. Cows not in such demand and lower, with choice, $4.75 to $5.25; good, $4 to $4.50; medium, $3.25 to $4; common, $2 to $3; canners down to $1. Calves slower prices, with best veal, $7 to $8. Stockers and Feeders—Lower, with best steers, $4 to $5; stockers, $2.50 to $3.50; stocker heifers, $2.50 to $3, stocker cows, $2 to $2.75.

Hogs—

Calgary prices have been lower, with week-end sales and a few of the first of this week at $12.10. Today's arrivals at $12.25.

Hogs—Edmonton has also suffered a decline, and prices have now reached around $12.

Sheep—

There is a very light run of sheep at Calgary, and good lambs would still bring $12, and others down to $10.50.

Sheep—Edmonton prices on lambs are strong, and sales would show $13 for tops and down to $11.

Grain—

Prices for the greater part of the week have been holding fairly steady, though there was a drop from last Thursday. Crop conditions are very satisfactory all over the west. U.S. crops not looking as good as they were. Export buyers not buying very freely now, and trade opinion uncertain as to how market will move.

Produce—

Eggs—Prices unchanged at Calgary, with extras quoted 25c to 27c; No. 1, 21c to 23c; No. 2, 16c to 18c; quality dropping off. Butterfat—Prices due for drop during next week, probably 3c; receipts increasing. Creamery Butter—Make increasing; lower prices at Vancouver and Montreal; surplus will have to be marketed at lower prices than present. Dairy Butter—Fancy table, 28c to 30c; No. 1, 23c to 26c; No. 2, 20c to 22c; No. 3, 17c to 18c; demand moderate. Poultry—Live fowl, 14c to 15c; dressed, 25c to 27c; receipts very light. Potatoes—Carlots probably worth $10 to $12, Calgary; no demand except for some seed.

Butterfat — Edmonton territory benefitted in some instances by keen scramble for cream, and prices advanced to 41c, 38c and 35c, for special, first and second grades, but this is not likely to last long; prices look decidedly lower soon. Creamery Butter—Surplus butter must be met at the coast; prices unchanged, but must drop soon. Eggs—Receipts showing deterioration in quality and spread widened, with extras at 28c; No. 1, 24c, and No. 2, 17c. Most of the eggs going into storage; no exporting.

Hay—

Demand light; Calgary dealers paying $15 to $22, according to shipping point.

Wool—

Eastern market reported fairly firm, no quotations sent out.

Hides—

Spring take-off is being moved; market may improve when good hides come in again, but nothing assured.

Furs—

Receipts light, and dealers reporting manufacturers buying; market tone healthy.

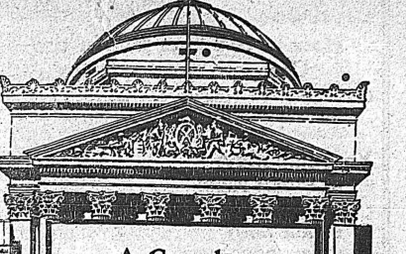
HAIL INSURANCE RATES NOT FIXED UNTIL AUTUMN

Impossible to State Until Then Whether There Will Be Increase

Hail insurance rates under the municipal plan are not fixed until between September 15 and October 3. This was the statement of E. H. Malcolm, chairman of the provincial hail insurance board in the course of an interview with the Herald on Tuesday. Some little confusion has been caused by a statement in another paper that there would be no increase in the rates this year. "It is impossible to say until the dates I have mentioned what the rate this year will be," he said. "It will entirely depend upon the losses sustained."

Mr. Malcolm made it clear that the hail insurance board had nothing whatever to do with the rates fixed by the line companies. Those were fixed in advance. It is understood that they will be the same in Alberta as last year, which varied from 7 to 9 per cent. The rates have been increased in some parts of Southern Saskatchewan, the companies claiming that this was the outcome of their experience covering a number of years.

"So far as the board is concerned," said Mr. Malcolm, "it does not recognize any so-called hail areas or hail belts. The rate charged by the board is the same all over the province. It is possible when more data is obtainable, covering a larger number of years, that one may be able to say with a reasonable degree of certainty which are the districts usually subjected to hail."



A Complete Banking Service

Small traders and great industrial corporations—workmen with modest savings accounts and farmers with their banking business—find in the Bank of Montreal the banking service they require extended to them with courteous attention.

RAILWAY RATES AND IMMIGRATION DISCUSSED AT C.P.R. ANNUAL

President E. W. Beatty Deals With Important Matters Affecting All Canada In Address To Company's Shareholders

E. W. BEATTY, President C.P.R.

THE 41st annual meeting of the Canadian Pacific Railway was held at noon on May 3rd, at Montreal, and in his address to the shareholders President E. W. Beatty, after commenting upon the earnings of the year, as already published, which had shown an increase in net receipts in the face of a decrease in gross, said:—

In my opinion, Canada cannot afford to be without a definite and forward immigration policy much longer. While it is urged that the depression both in agriculture and in general industry with consequent unemployment during the past winter is a reason why active immigration measures should not be taken, it must not be forgotten that there are types of immigrants that can be readily obtained and brought to Canada without the possibility of adding to the burdens of the country. The immigration of young people of British stock can be accomplished without affecting in any material degree the existing situation respecting unemployment. The immigration of domestic servants in substantial numbers may reasonably be encouraged and the immigration of agriculturalists from Northern Europe, Great Britain and the United States who can only be secured in limited numbers should be actively prosecuted. In addition, the Government would, I think, be well warranted in framing a policy designed to permit more general immigration of carefully selected types from countries, the people of which have heretofore come to this country and succeeded under Canadian conditions. It must not be forgotten that Canada's opportunities deserve widespread recognition and that adequate machinery is now begun to be set up, it will not be until 1923 that the results of the Government's activities will be felt. Unless we feel that the conditions in this country will not be improved for some considerable time to come it would appear that the preliminary steps to obtain immigrants in substantial numbers should be taken without further delay. The Canadian Pacific for many years has been the most active colonization agency in Canada. Settlers to the number of 54,000 have been placed upon its lands alone and the cost of the company's activities in land selling, irrigation and colonization since its incorporation has been extremely large, amounting in the aggregate to approximately $68,000,000, an amount in excess of the total expenditure of the Dominion Government for immigration during that period.

As forecasted in the address at the last annual meeting, reductions took place during the year in both rates of wages and freight and passenger rates; the former which became effective July 16th last was equivalent to a reduction of 9.03 per cent on their existing payrolls of the company. The demand for further freight rate reductions is still persistent throughout Canada and to the existing scale of rates is attributed much of the present slackness in business. It is, in my opinion, an entirely erroneous impression that the existing freight rates are the cause rather than the result of the present economic conditions, the most important of which from a transportation standpoint is the present scale of wages and working conditions which the railways were compelled by Government authority to accept during the war. It is the view of your directors and it has been their view for some time that the scaling downwards of freight rates should be begun with reductions on basic commodities, especially in those industries which have felt the general depression most severely. Notwithstanding the willingness of the companies to make sacrifices in their revenues in the hope that a lower scale of rates on basic commodities would give an impetus to business activity, they have been precluded from agreeing on a definite policy because of the approaching expiration on 7th July next of the provisions of the Railway Act allowing the Railway Commission to make rates irrespective of agreements, statutory or other. In 1897 an agreement was made between this company and the Government and confirmed by Parliament whereby in consideration of the receipt by the company of a subsidy of $3,300,000 in aid of the construction of a railway to the Crow's Nest and Southern British Columbia reductions in rates on certain named commodities shipped from Eastern Canada to points in the West and on grain to Fort William were exacted with the obvious intent of assisting the colonization of the Prairie Provinces. The so-called Crow's Nest rates on the commodities specified are from 19 per cent to 49 per cent lower than the rates at present being charged. The intention of Parliament at that time undoubtedly was to create special rates which the company would be entitled to collect and which would be legal though not bearing a fair relation to other rates. At that time the Canadian Pacific operated about 7,300 miles of railway but in a desire to give equality of rates to territories contiguous to those mentioned in the statute though not supplied with railway facilities at the time the statute was passed, the company extended the application of rates to the lines subsequently constructed or acquired so that in 1918 the application of the rates had been extended to 13,772 miles of railway. During the period subsequent to 1897 many thousands of additional miles of railway were constructed by other companies now included in the National Railway System. The rates effective on this company's lines were naturally put into effect on the lines of these railways so that it is safe to say that the so-called Crow's Nest rates were in practice applied to five times the mileage in operation at the time the agreement was made. The Crow's Nest scale of rates if applied literally would bring about an inequality of treatment between different parts of Western Canada which must, of necessity, favor some districts against others which now enjoy relatively equal rates. The Government desire to have the facts considered by a special committee of Parliament with particular reference to the operating costs of the railways and to the result of the application of the Crow's Nest scale upon the revenues of the National Railways and of other railways. The situation has been twice reviewed by the late Government, once in 1918 when the rates were suspended by Order-in-Council under the War Measures Act because of the inability of the companies (in view of the heavy costs of operation) otherwise to carry on successfully and to perform the transportation service so peculiarly essential at that time; and again in 1919 when power to deal with the rates irrespective of the provisions of special agreements was conferred upon the Railway Commission. In both instances the view of the Government apparently was that Parliament, in establishing the Crow's Nest rates had not in contemplation the extraordinary and abnormal conditions under which the operations of the railways have been carried on in recent years or the inequalities and discriminations which might be created under the scale of rates then imposed. While considerable progress has been made in reducing expenses, there still exists a serious increase above prewar costs and the wage scales of 1921 are higher by percentages ranging from 82 per cent to 368 per cent than those existing in 1898 and 1899, and the cost of principal commodities, including fuel and rails is also substantially higher; the increase in the case of rails being 92.32 per cent and fuel 177½ per cent. The operating ratio of the company in 1897 was 67.16 per cent, while for the year 1921 it was 82.28 per cent. The situation is one which should have frank recognition. The matter is in the hands of Parliament which alone can deal with it because of statutory restrictions.

I regard the stability of railway rates in Canada (even if re-adjustments downwards are bound to continue until normal operating conditions are reached) as being of the greatest possible importance to all Canadian railways. For the past four years the extraordinary conditions which prevailed have compelled drastic economies and the conserving of the resources of the companies wherever possible. It has prevented the increasing of facilities and improvements in maintenance and the construction of new lines because no company would be justified in spending freely for these purposes in the absence of adequate revenues. The large railway systems of Canada are, of which we can say that large expenditures are warranted, especially in view of the freight rate situation.

The steps preliminary to the readjustment of wage scales and working conditions are proceeding both in the United States and in Canada. The procedure being followed is that representatives of the agreements with the labor unions and by the laws of the United States and Canada. An early decision is hoped for in respect of some of the matters in dispute but the proceedings are, of necessity, protracted, and decisions are not, therefore, reached speedily.

Gross earnings on all Canadian roads still show substantial decreases under those of the corresponding period of 1921. Crop conditions, however, so far as they can be judged at this date, are very favorable and there is a returning spirit of optimism and activity which should grow in volume if the agricultural prospects are realized.

The company's taxation is not unnaturally increasing from year to year, approximately $10,000 000 having accrued in Federal taxes during the last five and a half years.

As indicated in the Annual Report, the finances of the company are in splendid condition and the credit of the company has been well maintained and is extremely high, and it is, I think, of national importance that it should be so maintained.

While there are some serious and difficult problems yet to be solved, the general sentiment of the country shows a distinct improvement over that prevailing at the end of last year and the beginning of 1921. I am very hopeful that the importance of the transportation agencies of Canada being permitted to undertake their full share in the country's advancement will receive due recognition and if it does I am convinced that the return to normal conditions will be greatly accelerated. Your company will, as always, endeavor to perform its part with the purpose of advancing the expansion of the country agriculturally and industrially. Few institutions are so linked up with the prosperity of Canada as is the Canadian Pacific and its ability to maintain a high credit has in a large measure contributed to the support received by other Canadian enterprises. Its progression should be step by step with that of the country itself.

MUSIC IN ALBERTA

The success of the Alberta Musical Festival, held in Lethbridge recently, is another indication of the prestige that this province is developing in the musical world. When musicians of international experience and reputation like Dr. Noble and Dr. Vogt speak in superlatives of the artistic work of our choirs and musicians, there must be merit in the performance.

The work of the Calgary choirs was deserving of special praise. It would be difficult to find another place with three large church choirs of such merit as the three that were heard at Lethbridge.

One of the main features of the Festival is the encouragement and development of the sporting instinct so sadly lacking in Canadian musicians in the past. It has been a recognized fact that no section of the community has been more jealous than musical people in their attitude toward one another in too many instances.

A number of Red Deer contestants went to Lethbridge, and, while they did not capture any of the premier honors, they were no disgrace to their home town, and in every case were very successful runners-up for those who stood first in the opinion of the adjudicators. When four pianists, for instance, from a place like Red Deer can take 3rd, 4th, 5th and 6th places among the contestants in Open Piano Competition, open to the province, it is no small achievement. Red Deer has every reason to be proud of the young people who were able to make such a record.

A very gratifying development in the Annual Festival is the competition among school choirs. Dr. Noble was right when he declared that we should have more musical training in the schools, even at the sacrifice of some other subjects that are taught. A truly musical nation will have a contented citizenship that will not treat the almighty dollar as its one and only god. Where would the real music of today come from if the churches of the land had not encouraged and developed individual and choral music? Why shouldn't the school do its share also in promoting the cause of good music?

Red Deer should be represented by at least one school choir at the next Alberta Festival to be held in Edmonton. It is also to be hoped that the time is not far distant when we will have a district Festival in Red Deer, when competitions will be held for choirs from rural, town and village schools.

With the talent that is here, it is up to Red Deer to take and maintain its place in the vanguard of musical achievement.

THE NEW TAXES

It may be that a rose by any other name would smell just as sweet. In any case, we are certain that the people of Canada will not find government taxation any more palatable under the new names that have been given to it.

Business men, in particular, are getting tired of having a tax demand thrust under their noses at every move. The provincial government increased the list of vexatious taxes very materially last session, with the little tax on gasoline, the increased theatre tax and others that people bump up against every day.

The proposed new tax on cheques, requiring 2 cents for every $50.00 written on the face of the cheque, will be a perfect nuisance to commerce, and will have the effect of tempting people to carry large sums of money around in their pockets. Consequent loss of coin and increase in crime is bound to result.

It is estimated that by reducing the duty on farm machinery and increasing the sales tax, an American-made plow will cost the farmer ten cents less now than it did before. The Canadian manufacturer must lower his price or the Canadian plow will cost the farmer more. If he lowers the price, his profits are reduced, and the government will lose part of the income tax. The American manufacturer is the only one who wins.

Of course some of these proposals may be revised yet; we hope so. We don't mind paying our share of the necessary taxation, but we do detest having to pay some tax almost every hour of the day.

A WEAK REJOINDER

(Winnipeg Tribune.)

When Hon. T. A. Crerar was talking on the naval estimates, he asked against whom Canada was to 'arm when all the big world powers had agreed to disarm. General Newburn interrupted him, saying: "What is the United States keeping a navy for?" To which Mr. Crerar replied, "That is their affair."

This is the true and obvious retort to such a question. But if someone had asked Mr. Crerar, "Why is Canada not keeping a navy?" an equally true and obvious retort on his part would have been, "That is Great Britain's affair."

Of course Mr. Crerar would never have made such a reply, but that is because he does not face the logic of his action and attitude. The action and attitude of Mr. Crerar and of the parliament of Canada obviously implies that, while the naval defence of the United States is the affair of the United States, the naval defence of Canada is not the affair of Canada, but of Great Britain or Australia, at any rate, not of Canada.

This is to deny in deed the status of Canada in the Empire which we assert in words. Even if Mr. Crerar refuses to face the logic of his own action, he can possibly appreciate the ironical humor of making a parade of having signed the Genoa non-aggression pact separately from Great Britain.

We have, it appears, asserted our status in the Empire by signing a pact not to take aggressive action against others, separately from the only power that can protect us, and upon whose shoulders we cheerfully lay the onus of protecting us against the possible aggression of others against ourselves. Such a status of equality in the Empire may suit Mr. Crerar, but Canadians with a regard for the dignity of their country, are not so easily satisfied.

BACK TO NORMAL

(Winnipeg Tribune)

Not far away from this part of the world there have been demonstrations of late of a return from a class form of government to administration representative of all classes.

North Dakota is a striking example of the non-success of class administration. In that state the class distinction influences were mainly promoted by an imported European sentiment. After a test it was found that class became so obnoxious to the rest of people, those outside as well as inside North Dakota, that a misled people decided to abandon a faddism and return to practical membership in the family of better democracy.

Minneapolis had a trial for some time of rule under a class-imbued mayor. The city roused itself one day and threw off the yoke.

And now St. Paul, Minn., rejected the other day the class government idea. The issue was as clearly drawn as in the Leach-Van Lear contest in Minneapolis. The socialistic radical in St. Paul failed of election as mayor by a margin of thirteen thousand votes. The successful candidate adopted as his slogan "special privileges for none," and goes into office pledged to treat all citizens on the basis of equal rights.

The world is changing, and it has changed, but that which is fundamentally wrong has never lasted, and cannot last. It is fundamentally wrong for any class to set itself up to rule with the special end in view of advancing its own interests, to the neglect of others.

SO SAY WE ALL.

(Gleichen Call)

Do you know that an editor or a reporter for a newspaper can in his rounds stop and ask a hundred persons, "what is the news?" and ninety-nine out of every hundred will reply, "nothing special," and yet fifty out of that number know something that if not found in the next paper will astonish them greatly and disappoint them more, and perhaps make them madder than hornets. Don't be afraid to let the newspaper man know it.

LIFE COMES FIRST; GIVE UP BUSINESS IF GOLF INTERFERES

Philadelphia, May 28.—"If golf interferes with business, the thing to do is to give up business," said Dr. Franklin P. Millard, of Toronto, in an address on Saturday before the delegates of the Pennsylvania Osteopathic association. "No man, no matter how busy he is, should sacrifice his life for business or profession," Dr. Millard said.

REST IN PEACE

(Wetaskiwin Free Press)

The city is practically in slumberland as regarding sports, and even the brass band is adopting a Rip Van Winkle spell.

The average home is a sort of menagerie, says a cynical exchange. Mother is a dear; baby is a lamb; the second boy is a kid; the next is a pig; Aunt Jane is a cat; Cousin Kate is a bird; big sister is a chicken, and of course Dad is the goat.

DECREASED DUTIES, INCREASED TAXES—FIELDING BUDGET

Budget Speech by Hon. Mr. Fielding in Canadian Commons Is Fairly Conservative.

The budget debate is holding the centre of the stage in the Canadian House of Commons. Hon. Mr. Fielding made the budget speech last Tuesday. There are slight reductions on some articles coming from the United States, with a larger measure of British Preference. The Sales Tax is increased 50 percent., but the list of exemptions from the operation of the tax are increased.

The increased tax on checks is an outstanding feature of the budget. Some of the outstanding proposals are outlined in the following despatch:

Ottawa, May 23.—Taxation proposals in today's budget include:

Reductions on agricultural implements. This applies to imports from the United States.

Fielding announced that the Marking Act was not desirable but may be applied in special cases.

A law requiring fair price under the Customs Act to be equal to the cost here plus a fair profit to be repealed.

Requirement that foreign currencies shall not be valued at less than 50 per cent of par is to be abolished. So is requirement of certificates of invoice.

Duty on alcohol reduced to $2.40 per gallon to druggists.

Duties increased on cigars and cigarettes.

Beet sugar made subject to excise tax of 40 cents.

Tax one per cent on bank circulation. This is now offset by exemption under Income Tax, but the exemption is to be removed.

Duty on cotton, woolen, rubber and knitted clothing reduced 2½ per cent. Duty on boots and shoes cut 2½ per cent.

Automobiles up to $1,200 in value to pay 5 per cent; above that 10 per cent.

Confectionery tax 5 per cent.

Ale, beer, etc., 15 cents per gallon.

Additional tax on cheques 2 cents on every $50.

Telegram tax raised to 5 cents.

Preference on refined sugar raised from ¼ to ½ off.

Preferential rates decreased on cocoa.

Duties on mowing machines, binders and reapers reduced 2½ per cent; so also on seed drills and plows. Most other agricultural implements reduced 5 per cent.

Duty of 5 cents per pound on raw leaf tobacco abolished when taken into factory.

Sales taxes to be increased 50 per cent.

Gasoline reduced from 2½ to 1 per cent, and other reductions made on fishermen's supplies, spraying machines for fruit industry reduced by 2½ per cent on preference and 5 per cent on general tariff.

Tax imposed on mineral waters and soft waters 10 cents per gallon.

Five per cent tax on premiums paid to unlicensed insurance companies.

Transfers of stock raised from two cents to five cents per share.

Cigars, excise rate raised from $6 to $9 per thousand.

Hon. Mr. Drayton, finance minister in the late Meighen government, has moved an amendment censuring the government for failing to implement its pre-election pledges, as by so doing they have betrayed the confidence of the people in their public representatives.

KEVIN OIL WELL WILL RUN 1,000 BARRELS A DAY

Large Development Company to Be Organized on Canadian Side.

Lethbridge, Alta., May 27.—The Gordon-Campbell discovery well in the Kevin oil field, 90 miles south of this city, is being pumped. The oil stands up under the pump test with surprising force, and shows no signs of lowering in the casing. The well was pumped for 18 hours, over 650 barrels of oil being produced. One expert who witnessed the pump test, predicts well will run 1000 barrels per 24 hours.

Gordon-Campbell oil syndicate have started to erect $25,000 plant at Kevin for handling, piping and loading crude oil. With production secured, sale of the oil will begin as soon as it can be landed at refinery. Prospects of refinery in this city are bright.

Gordon Campbell is expected here tonight to meet Calgary and Lethbridge men in connection with the organization of a large development company on the Canadian side. P. Burns, of Calgary, is said to be interested.

PLAYING BRIDGE

"She must be a good bridge player."

"I can't see it."

"She quotes a lot of rules."

"Yes, and I can quote a lot of Shakespeare. But I can't write blank verse."

BIG DECLINE IN IMPORTS FROM UNITED STATES

Imports to Canada from Great Britain Holding Up Much Better.

Ottawa, May 29.—Canada is still importing more from the United States than she is exporting to that country and still exporting more to Great Britain than she is importing from there, according to the latest trade returns published by the Dominion bureau of statistics. These figures cover the 12 months ending with April. During that period Canada imported from the United Kingdom goods valued at $111,375,000 and exported goods valued at $294,655,000 to that market, while imports from the United States were $507,406,000 against exports of $286,430,000.

As the total Canadian trade has been falling rapidly, there is a falling off in all these items, but the export trade to Great Britain is holding up much better than exports to the United States or than imports from either country. The decline in exports to the United Kingdom for the 12 months period ending April, as compared with the figures for the year ending April, 1921, was only about $18,000,000, while exports to the United States fell off more than $250,000,000 for the same period.

Canadian trade with Australia continues to show a heavy balance of exports over imports, but there has been a decline in exports while imports have risen in value. The exports to Australia for the 12 months ending April, 1921, were exceptionally heavy, being 18 millions compared with 11 millions for the corresponding period to April, 1920, and 10 millions for the 12 months ending April just passed. Imports from Australia for the year ending with last month were $1,175,000 as compared with $820,000 for the previous year, and $1343,000 for the year ending April, 1920.

MUNICIPALITIES WILL FIGHT NEW TAX ON CHECKS

Winnipeg, May 27.—Acting upon a suggestion made by Finance Commissioner Ross, of Toronto, Acting Mayor F. O. Fowler, and City Treasurer H. C. Thompson of Winnipeg, last night were appointed a committee of the finance committee to get in touch with the western municipalities to obtain immediate and concerted action against the proposed imposition of the stamp tax on municipal checks. The proposed tax is to be levied at the rate of two cents for every $50. Mr. Thompson said the municipalities should not be put on the same basis as corporations or individuals, as they were not in business to make money. Due to business depression and non-payment of taxes, many municipalities found it difficult to finance under present conditions.

STREAMS CLOSED TO FISHING WITHIN THE FOREST RESERVES

Notice is given by the supervisor of the Clearwater Forest Reserve that the following streams within the Forest Reserves are closed to fishing until further notice:

(a) Crow's Nest Forest—All waters closed to fishing except the main streams of the Old Man, Livingstone, Carbondale, Castle River; the west branch of Castle River, and that portion of Racehorse Creek from the Forks eastward.

(b) Bow River Forest—All waters closed to fishing except the main streams of the Red Deer, Elbow, and Highwood Rivers.

(c) Clearwater Forest—All waters embraced in Shunda Creek and its tributaries.

Parties contemplating fishing trips to forest reserves will be well advised to govern themselves accordingly.

BANK HOLDS UP RAILWAYS IN FAR NORTH

Contract Awarded for Twelve Mile Extension on Lacombe Railway.

Edmonton, May 27.—W. M. Dutton, formerly connected with J. D. McArthur in railway construction, has been awarded the contract for the building of the 12-mile extension to the Lacombe and Northwestern Railway, northwest of Bentley. This is the only piece of railway extension that is under way at all as yet. At the last session of the legislature, it was decided to make some extensions to the Edmonton and Dunvegan from Berwyn and Grande Prairie, but satisfactory arrangements have not as yet been made between the provincial government, the J. D. McArthur interests and the Union Bank. It is expected that Premier Greenfield will have another interview with the bank officials on his return from Ottawa, when it is hoped that some agreement may be reached. At present Vernon Smith is not sure whether construction will go on this year or not.

OUR LETTER FROM OTTAWA

Ottawa, May 18, 1922.

"The Militia estimates have been pared down to a point as low as consistent with national safety," declared Hon. George P. Graham, Minister of Militia, on April 28th, and on May 9th, at the dictation of a wing of the Liberal party, further reduced the estimates to a point, according to his expressed views, to imperil national safety. Mr. Graham is the chief waverer in public life. It is not the first time that he was a revolving politician, as in 1917 on the conscription issue he was in Sir Wilfrid Laurier's camp one day and with the conscriptionist Liberals the next. But that exhibition of pliability was less humiliating than his recent performance on defence; then he was camouflaged by secrecy, but now he revolves openly in parliament to the Quebec breezes.

George P. Graham has, according to his own statements, wrecked the Canadian militia—the backbone of Canada's defence—glorious in its record of sacrifice and achievement in war and peace, at home and abroad. Our air force will cease to exist if his offer to "board" them on the provinces is not accepted. Our naval defence has become a farce, and a humiliation to this country, claiming autonomy and practicing the most flagrant dependence on burdened Britain. We talk as partners of the British Empire and act as wards. We demand participation in policy; and we solicit charity in defence of the effect of that policy. Mr. Graham has made Canada's humiliation complete.

Canada in peace and since the great war has spent less on its military force than any other country in the world. Where the United States spends 19% of its revenue for defence, Canada spends but 3.75%. In the British Empire we contribute less towards defence than any other part. Our militia was the backbone of our overseas army. Progressives sneer in parliament at the militia, yet every officer in prominence in the Canadian army had military training previous to the great war. The war wrecked the militia establishments and reorganization was difficult but was being accomplished at a low cost, when Mr. Graham succumbed to Quebec hostility of the militia and the sneers of the Progressives and left Canada without defence. One of Canada's greatest soldiers, General McBrien, a former militia man, is head of our forces. Mr. Graham, as has been quoted, had pared the estimates "as low as consistent with national safety." Quebec rebelled even at this reduction. Mr. Graham, in reply, said, "Ten days ago I put the question squarely to General McBrien: If we cut out military training for one year what effect would it have?" He said, "The effect would be disastrous on any attempt to maintain an organization of voluntary militia." Mr. Graham went further in defence of his drat proposal, and declared "though we may never be involved in another war we have a duty to perform through our militia in maintaining domestic order." Further, he declared that if "we are a self-respecting nation," we must maintain a militia force. He reasoned with his Quebec colleagues that a well trained militia force was as necessary to the nation as fire insurance to the business man. In a most eloquent appeal he pointed out:

"Could we let it be known throughout the entire world that Canada is a country where the militia is ineffective, where the mounted police is reduced almost to a vanishing point, where the naval service is to be of little account, and where the flying force is not to function? We would become the mecca of a class of people that would not be desirable in the best interests of the country."

Brave words were these. They had a tremendous effect on parliament, but Mr. Graham had talked more bravely than he acted. He adjourned the debate without passing his estimates, and the Quebec wing insisted on a caucus. They had one and spanked the loud talking minister of war. He quit cold; came back to parliament, and in his own words gave us an "inefficient" militia," "a vanishing mounted police," "a naval service of little account," "a functionless air force," and "made this country the mecca for undesirables."

Parliament has never witnessed a more humiliating spectacle than this minister eating his own words; protesting against passing his own estimates; and revolving to every whisper whether it came from Liberals, Progressives, Red Labour or Packfists. No minister in any Government in Canada had ever taken such contradictory positions. His duty was to resign, but Mr. Graham preferred his own and his country's humiliation to loss of office.

And so it was with the air force. Our aviators were the finest in the war. At the close of the war Canada had twelve of our aviators with a total of over 500 enemy machines to their credit. No other country in the world could equal this record. Their fate is more cruel than the militia. They are to be put up for adoption. If the provinces will take and board them the Dominion Government will furnish the machines, but if not, they are to be thrown in the scrap heap. Mr. Graham has made Barnado boys of our splendid aviators.

The navy is also gone, although no one knows the naval policy from hour to hour. Even less time is required for the revolving minister to show a new sign. When he was announcing the scrapping of our navy Premier King was declaring that our flag hoisted on Wrangel Island should never come down. Mr. Graham was pulling down the same flag on the only boats we had to give us authority on Wrangel Island. Great Britain spends $10.60 per capita for naval defence, Australia $2.30, and Canada 17 cents. Hon. Arthur Meighen, after pointing out our obligations, declared:

"Do not let us pretend to be carrying our obligation when, in fact, we are not carrying it in any sense. Let me put this as well: If the Government believes the majority of the people of this country want us to follow this course, and do nothing in relation to defence, then in the name of honour and decency let us stop outside the field of Empire altogether and get on our own feet." But to do not let anyone say I am in favor of stepping out."

But Mr. Graham again squirmed away before the frowns of his Quebec colleagues and wrecked the navy, making this country an object of charity on Britain, South Africa, New Zealand, Australia, India, Malaya. All that is left of Canada's militia, navy and air force is the Minister of Militia, Hon. George P. Graham. He has held his job by sacrificing our national honour, respect and defence.

UNABLE TO WALK FOR A YEAR

Paralysis Entirely Relieved by "Fruit-a-tives"

The Wonderful Fruit Medicine

Paralysis is a break-down of the Nervous System and affects the victim in various ways. Sometimes, *nervousness makes itself known by hysteria, insomnia, constant headaches*, or it may be so bad that one is partially or completely helpless in some part of the body, just as Mrs. Heacock was.

SAULT STE MARIE, ONT.

"When I was twenty-eight years of age, my doctor advised me to have an operation, which I did and it proved very serious, *leaving me weak and unable to walk for a year.* Seeing your "Fruit-a-tives" advertised in the papers, I decided to try them. I continued to use them regularly, and today I am able to go about my home duties and care for my family".

MRS. J. W. HEACOCK.

Any form of Nervousness is often caused by, and is always aggravated by, Constipation, which poisons the blood, irritates the kidneys and inflames the nerves. *"Fruit-a-tives" stimulates the action of liver and bowels, kidneys and skin—tones and sweetens the stomach—keeps the blood pure, and builds up the entire nervous system.*

In a word, "Fruit-a-tives" has proved that it is the most scientific and effective remedy in the world for Nervousness or a disordered condition of the nervous system.

50c a box, 6 for $2.50, trial size, 25c. At dealers or sent postpaid by Fruit-a-tives Limited, Ottawa, Ont.

BEDDING OUT PLANTS

Practical Hints for the Amateur Gardener on a Seasonable Subject.

(By A. Paton, Head Gardener at the Hospital for Returned Soldiers, Red Deer).

The season for bedding out is drawing near, but be careful and not plant out before the stuff is thoroughly hardened off, otherwise you are only courting disaster. We are likely to get a slight frost at nights yet, and delicate stuff that has been forced along under glass, and then planted out in the open, would readily succumb to a night's frost.

Remove the glass from the hotbed every day and allow the air to circulate freely. If, however, a high wind is blowing, and the stuff somewhat delicate, better give protection under the glass. Should it calm down towards evening the plants would greatly benefit by a few hours' fresh air. Just care for them as you would a sick person by gradually allowing more fresh air each day till they become gradually accustomed to it, and do not get a relapse through an overdose at one time. When the plants are strong enough the frames may be left open all night if there is no danger of frost.

Generally speaking, about the first of June is the time to commence bedding out half hardy annuals, such as stocks, asters, etc., but you will have to use your own discretion and take into account weather conditions. Dull weather is best for bedding out, but should the weather be bright and warm it might be necessary to pour water around the plants as they are bedded out. Should watering be resorted to, be sure and cultivate around the plants as soon as the ground is dry enough so that it won't stick to your hands or hoe as the case may be. If cultivation is neglected after watering, the ground will cake and crack, and under those conditions a large percentage of your plants would pine away and die should the weather be hot and windy. Never lose sight of the fact that "irrigation without cultivation" is a failure.

An exception to the last phrase might be made in the case of a new made lawn, the surface of which should never be allowed to become dry till the grass shows nice and green, then allow the surface to dry enough so that it can be rolled without the dirt sticking to the roller. Any tendency to cake will be counteracted by rolling, as this will squash the caked surface and fill up the cracks, and in a short time the grass will protect the surface of the ground from the hot rays of the sun. Once the lawn is well established do not apply frequent light sprinklings, but water thoroughly, then leave alone for a time.

Loose planting is another cause for plants dying in beds and borders, especially if the weather is hot. This mistake is frequently made by the fair sex, as their gentle touch is often a means of killing them with kindness. In the first place, make the hole deep enough to receive the roots without doubling up. Place the plants in the ground up to the first pair of leaves, making the roots good and firm, with a loose mulch around the neck; never pack tight around the neck.

My attention was once drawn to a cabbage patch in a kitchen garden, in which nearly every plant looked blue and starved, and quite a number were already past redemption. Whilst rather reluctant to lay the blame at the door of the fair sex once again, who so often fulfil the husband's duty in order to have a garden at all,—nevertheless the case in question was the result of a young wife's first experience in planting cabbage. In planting the cabbage she used a dibble, and made a deep hole straight down in the ground, then pressed the soil tightly against the neck of the young plant with the roots hanging in space. The term "hanging" is usually applied to case like this, and is rather appropriate, as they hung by the neck till dead. However, "perseverance ate the pudding," and that same lady is now quite an accomplished gardener, having been educated in the school of bitter experience.

TENNIS TOURNAMENT

The Annual Provincial Tennis Tournament will be held in Edmonton, August 7th to 12th inclusive, on the courts of the University Club, under the auspices of the Alberta Lawn Tennis Association.

EVENTS

Men's Singles and Doubles, open and handicap.

Ladies' Singles and Doubles, open and handicap.

Mixed Doubles, open and handicap.

Ferris Cup Singles—Open to men who have never won an open event in a major tournament.

Junior Singles—Open to boys under 19.

The Executive of the newly organized Alberta Lawn Tennis Association is making every endeavor to make this a real provincial tournament, and the best ever by having the best players from all clubs in the province compete. To this end announcement of the place and date is made thus early to enable players desiring to attend to make their arrangements accordingly.

Accommodation at very reasonable rates can be provided at the University for out of town players, who notify the Secretary-Treasurer of the A. L. T. A. in sufficient time.

Any tennis player belonging to a Club which is a member of the A. L. T. A., or any tennis organization affiliated with the Canadian Lawn Tennis Association or other recognized Tennis Association, is eligible to compete. Arrangements are being made whereby any player who is not a member of a Club belonging to the A. L. T. A. or other recognized Tennis Association may compete upon payment of a small fee.

At present all cups denoting Championships in the Open Events are held by Calgary players, and Calgary may be counted on to send up a strong contingent to keep championship honors in that city. Edmonton which is experiencing a tennis boom this year, as indicated by the number of new clubs, will be very much in the running, while such strong tennis centres as Medicine Hat and Lethbridge should be serious contenders for championship honors, while a great many of the smaller clubs of the Province have material of championship calibre, and it is hoped that every club will be represented.

WORK ON L.N.W. RAILWAY TO BE STARTED SHORTLY

Government Calls for Tenders on Extension Near Rimbey, Alta.

Edmonton, May 23.—Tenders are now being called for by the railway department on the construction of the 12 miles extension on the Lacombe Northwestern Railway, and as soon as the contract is awarded, operations will be commenced.

Hon. V. W. Smith, minister of railways, says things will be ready and work can be proceeded with at once. The survey of the road, which will run from the present end of steel near Rimbey to the south boundary of township 46, has been approved. It was made under the direction of H. G. Dimsdale, until recently superintendent and engineer for the L.N.W. road, and gives an excellent grade, it is stated, through good farming country. The proposed terminal on this year's extension will serve a population of about 500 in the Buck Lake district and several hundred more in the Iowa, Haverig and Springdale settlements.

The engineering work on the additional 12 miles will be under the supervision of Capt. Howard Tye, who has been appointed superintendent and engineer in succession to Mr. Dimsdale, recently selected by the government as its chief highways commissioner.

Arrangement of a treaty between Canada and Denmark, which will enable trawlers from Iceland to use North Sdyney as a base of operations from the grand banks for fishing, landing and transshipping their catches in bond to their home ports, will be requested in a memorial which the board of trade is sending to Premier King.

HOLDING ON

Mother looked up as her daughter came down to breakfast.

"Daisy, didn't I see that young man in the drawingroom holding your hand last night?"

"Yes, mother."

"What was he doing that for?"

"I really don't know, mother."

"You don't know! That's strange."

"Well, mother, I thought he might be going to put a ring on my finger, but he didn't."

WESTERN CANADA TENNIS CHAMPIONSHIP

The controversy with regard to dates and events of the Western Canada Sectional Championships has been definitely settled, according to a wire received by F. C. Casselman, Alberta Councillor on the Canadian Lawn Tennis Association Executive, from E. V. Young, Secretary British Columbia Lawn Tennis Association, as follows:

"Western Sectional Championships will be held on Vancouver Club courts June 22, 23, 24. Entries confined to Men's Singles and Doubles. Vancouver Club has decided to allow any entry in Sectional Tournament to play in City of Vancouver Championships week beginning June 26th. Please advise all clubs in your province. As time is short, solicit your co-operation to make this first Sectional Tournament big success."

The two best players in this Western Sectional Tournament will be sent to Toronto to represent Western Canada in the Canadian Championships beginning July 10th; train fare, berth and six dollars a day for time going to, playing at and returning from Toronto being paid by the Canadian Lawn Tennis Association.

JUNE ROD AND GUN

A number of notable features are contained in the June number of Rod and Gun in Canada. George L. Catton, a Canadian short story writer of prominence, contributes "Flapjacks," a short story masterpiece. There is an article entitled "Shorebird Migration Along N. S.," by that famous naturalist, Bonnycastle Dale, while Robert Page Lincoln contributes "Random Casts," in addition to his usual Fishing Notes department. The Guns and Ammunition department in this issue is perhaps the big feature. It is an unusually liberal one, containing a wealth of material which will be relished by all who read it. The Kennel Department resumes with this issue, under the editorship of Frank H. Walker, of Windsor, an authority on dogs, and one of Canada's leaders in kennel circles. A. Bryan Williams contributes his usual hunting notes in B. C., and there are other features which go to make up a well-balanced, attractive magazine, which will be found particularly interesting to all.

Rod and Gun in Canada is published monthly at Woodstock, Ontario, by W. J. Taylor, Limited.

The Municipal Plan, Directed by The Hail Insurance Board
on account of giving the protection at cost has, in the three years of its operation, saved the Farmers of Alberta considerably over
One Million Dollars
in premiums. In addition to this the Board is commencing the 1922 season $230,000.00 further ahead than they were when the Act came into operation. They are
BETTER PREPARED THAN EVER
to handle your business this year. For particulars refer to your Calendar, see the Secretary-Treasurer of your Municipal District, or write the Hail Insurance Board, 22 Canada Life Bldg., Calgary.

DUNLOP CORD TIRES FABRIC
Making "Mile-ionaires"
THESE are great days for the motor car user—In a tire sense. Your dollar never before bought as much. Your speedometer never before registered as much. Your repair kit never was as idle. All because **Dunlop Cord Tires** came and ushered in a new era. Five years ago you paid half as much again for the same size tire; ten years ago you paid twice as much. Prices have been tumbling. Quality has been mounting. One time we thought 3,500 was mileage to boast of; to-day we may run into half a dozen "25,000 milers" in a forenoon. "Dunlop did it," says one enthusiast. "The 'Two Hands' are making us Mile-ionaires," says another; and so on.
The sign "Mileage Wanted" is now changed to "Mileage Supplied."

LATEST NEWS

Whether or not the government will appeal the judgment of Judge Cusson of Montreal, in which he dismissed the charge of making false returns brought by the government against D. C. Macarow, general manager of the Merchants bank, depends upon what report is received from its counsel, it has been announced.

While playing with other children near Ituna, Sask., on Thursday, the baby son of Antony Jankowski, a homesteader, toddled into a slough and was drowned.

According to the best information available at Regina on Friday, 90 percent. of what wheat will be sown in the Regina district this year, is now in the ground. A shrinkage of about 15,000,000 bushels is estimated in this district this year.

Action to have the city of Moose Jaw's amusement tax quashed on the ground that it is ultra vires, and was illegally dealt with by the city council, was taken by a firm of lawyers on Friday on behalf of Walter Clark of that city.

Canadian soldiers who made money by exchanging more money than they were entitled to exchange as pay and allowance, are being asked to return to the government the difference between what they actually should have received. Between 400 and 500 Canadian soldiers have been notified.

A temple costing $3,000,000 is to be erected in Ste. Anne de Beaupre to replace the one destroyed by fire some months ago.

Mrs. Florence Smeardon was suffocated and her daughter, Miss Beatrice, sustained a fractured skull as a result of a fire on Barrington street, Halifax, on Friday.

Consternation which is sweeping over the financial districts as the result of increased tax on checks becomes more evident, and a petition, signed by all members of the Montreal stock exchange, has been forwarded to W. S. Fielding, minister of finance.

A motion to rescind the resolution of R. M. Johnson, Moose Jaw, favoring a compulsory wheat board, passed the agricultural committee of the house Friday morning.

The case of the agricultural interests of western Canada for the continuation of the Crow's Nest Pass agreement will be presented to the special railway committee of parliament at Ottawa next week by representatives of the U.G.G., the Canadian Council of Agriculture and the Saskatchewan Co-operative association.

The twenty-second annual meeting of the Imperial Order of the Daughters of the Empire and the National chapter of Canada is being held in Vancouver, B.C., commencing Monday, May 29.

The London Daily Mail announces the death of Grace Hawthorne, author and actress.

Marquis Curzon, secretary for foreign affairs, has been ordered by his physician to take a complete rest for six weeks. The Earl of Balfour will act as foreign secretary pro tem.

The editorial verdict in London Friday morning on Premier Lloyd George's Genoa speech is directly opposed to that of the house of commons, which gave him what is considered the equivalent of a vote of confidence.

Premier Lloyd George will meet Premier Poincare of France at Boulogne, on Monday probably early in June, according to the London Evening News.

Arthur Griffith, head of the Irish delegation which is in London to discuss the Irish situation with the British cabinet, had a preliminary conversation with Winston Churchill on Friday morning.

Party organizations throughout southern Ireland are busy preparing for the elections, and it now seems likely that more candidates will be nominated in opposition to the coalition Sinn Fien panel than the politicians anticipated.

The shoe factories in Lynn, Mass., more than 75 in number which have been idle for 11 months, will open their doors today to 12,000 operatives who have accepted a temporary wage cut of 15 percent, proposed by the state board of conciliation and arbitration.

The bid of anthracite coal producers for a settlement of the eight weeks' old strike on a basis of a wage cut of 21 percent, was refused by representatives of the miners at New York on Thursday.

George U. Munro, 19, of Camden, N.J., confessed on Thursday that he had killed Ida Kramer, seven years old, Woodbury, and then threw her body in a creek. He was out of work and kidnapped the girl for ransom, he said.

Judge Charles H. Piper, of Niagara Falls, N.Y., has eliminated the word "obey" from the marriage ceremonies performed by him. He says that wives never obey their husbands anyway.

Thirty-two persons were injured, a number of them seriously, when a crowded trolley car on the line of the Birmingham Railway, Light and Power company was turned and broken into two parts by a freight train on the Alabama Great Southern railroad line at Woodbine Station, Birmingham, Ala.

Elbert H. Gary, in his annual address as president of the American Iron and Steel Institute, at session at New York on Friday, advocated that congress take the tariff out of politics, that it play no favorites in its tendency to regulate things, and that it forget soldiers' bonus until the nation is less seriously burdened financially.

The international committee of bankers having reached the conclusion that it is useless to proceed further with its investigation until the reply of the German government is received to the ultimatum of the reparations commission, expiring May 31, adjourned on Friday until that date.

A report has reached Paris that Charles Crane, formerly United States minister to China, has been convicted by a French military court at Damascus and sentenced to 20 years imprisonment on a charge of inciting a riot.

Eight men were instantly killed and three seriously injured in a series of explosions at the plant of the Grasselli Chemical company plant at Sinnamahoning, Pa., on Friday.

The death list from the disaster in the ammunition factory at Bluman, near Vienna, which blew up on Thursday, was increased to 19 by reports received during the night.

The Russian executive committee has directed the commissariat of war to draft plans for a material reduction in the Red army contingent upon the success of the Hague conference.

TORONTO THE GOOD BETS $7,000,000

Toronto, May 27.—Approximately seven million dollars was wagered at the Woodbine race track during the first five days of the present meeting, and when the returns are complete for the seven days racing here, it is thought that the amount will not be much less than $10,000,000. The sum of $347,000 has been paid into court for the first five days' returns, in regard to the five per-cent. tax demanded by the Ontario government.

Toronto, May 27.—The Declaratory Bill introduced in the legislature early this week by Hon. W. E. Raney, attorney-general, nullifying the injunction granted to the Ontario Jockey Club regarding the payment of five per cent. on race track wagers, became law last night when the bill was given third reading, and received royal assent.

Harley Dewart, K.C., prior to the moving of the third reading, moved in amendment that the bill be not read a third time, and that it be referred back to the committee of the whole house with instructions that a clause be added which would prevent the act from affecting an action or proceeding against the crown or any minister thereof, or against any officer authorized to act on the instruction of the minister in which any question is raised as to whether any or certain legislation is or is not within the legislative authority of the province. Mr. Dewart's motion was lost.

SCHEDULE OF GAMES

June 2—Mercantile vs. K.P.'s.
June 6—High School vs. K.P.'s.
June 9—K.P.'s vs. Mercantile.
June 13—Mercantile vs. High School.
June 16—High School vs. Mercantile.
June 20—K.P.'s vs. High School.
June 23—Mercantile vs. K.P.'s.

The first mentioned team in each case is the home team, and will be responsible for supplying the ball and the umpire. The home team will also take up the collection. Be liberal; the boys will need some money to carry on.

OUR OTTAWA LETTER

Ottawa, May 22.

Parliament is presented every week with a new evidence as to the strange mixture of irreconcilable elements which go to make up the government side of the Commons. Everybody knew that those ranks were full of men opposed to public ownership of public utilities, and particularly the National Railways, but it was a curious thing, nevertheless, to hear Walter Mitchell (St. Antoine), former Provincial Treasurer of Quebec, rise in his place and denounce the very principle to which his leader and the government is pledged to give fair trial. Then, within twenty-four hours, another Liberal, W. D. Euler, of North Waterloo, took the floor and gave the House reasons for his faith in public ownership. He made bold to criticize Mr. Mitchell's stand, and predicted success for the National system under careful management. Mr. Euler urged the government not to delay co-ordination of the railway boards, and dropped a significant hint that its supporters who oppose public operation would do well to reserve their opinions to themselves, otherwise, in event of failure, the public would be justified in saying that nothing else could be expected from an administration prejudiced in advance.

Of course the sincerity of the government can only be accepted "subject to confirmation," in view of the strength of the anti-public ownership element behind it, but at least it has not dared to do otherwise than announce a continuation of the Meighen Government's policy in regard to the railways. During the late election campaign, Liberal speakers declared there was a "railway question" transcending the tariff in importance, and there was quite an imposing section of the official party platform devoted to criticism of the then government. All that has gone by the board. Hon. W. C. Kennedy has informed the House that it is proposed to co-ordinate the lines and their boards, as planned by his predecessor, Hon. J. A. Stewart, though there is no indication yet as to when.

Not the least interesting feature of the debate on railway estimates was the statement of Hon. T. A. Crerar, that the policy of the Meighen government "was the only sound policy this country could follow. . . . The Grand Trunk system had to be brought in to the Canadian Nationals, and in my judgment the government of the day would have been derelict in duty if it had failed to do so." The Progressive leader wasn't boosting much for Rt. Hon. Arthur Meighen during the election, but now the votes have been counted, a belated tribute doesn't cost anything, and is better than none at all.

Hon. Walter Mitchell's stock has fallen considerably since his contribution to the railway debate. The ex-minister from Quebec had been rather a "mystery man," credited with all manner of administrative and political acumen—until he spoke in the House, and disclosed merely the old-time arguments against public ownership. But he only shared the fate of the majority of the Cabinet. The latter looked somewhat imposing when formed. The House and the Progressives, who endeavor to be polite and considerate in discussing estimates, have been unable to hide their amusement at the paucity of knowledge in regard to his department displayed by the Minister of Public Works, Hon. J. H. King. Hon. George P. Graham, who might have utilized his experience in the railways department, is admittedly a square peg in a round hole with the militia portfolio. Hon. James Murdock, who ought to have done something with the Labour Department, appears to be as much at sea there as if he had been given Marine and Fisheries. Hon. D. D. McKenzie, Solicitor-General, when in difficulties quotes scripture or cracks an ancient joke. Even Sir Lomer Gouin, said to be master of the Quebec wing which controls the administration, sits in silence to the left of his young chief, except when speaking for the justice department, and then restricts himself to typed statements provided by his deputy. Hon. A. B. Copp, Secretary of State, might be interesting if anyone could tell what he says. There is some hope for the Department of Trade and Commerce, where Hon. J. A. Robb seems at least willing to find out what he doesn't know. Hon. Jacques Bureau is still chuckling over a benevolent joke played upon him by the Conservative Opposition in allowing passage of his estimates without a battle. Probably the one minister who thoroughly knows his work is the veteran Finance Minister, whose influence in the regime of 1896-1911 was so well recognized that the slightly modified version of the old National policy current during that period is still described by Liberals as the "Laurier-Fielding tariff." And even Mr. Fielding's great test comes on with the budget.

It is only natural that ex-ministers to the left of Mr. Speaker should be better posted than the new incumbents, and it is amusing to hear them, at times, providing information to help out the latter when questions come from the many new members in the Progressive section. And—to refer again to the member for St. Antoine, Hon. Mr. Mitchell ran up against this situation in his railway speech, when some of his arguments were challenged by Hon. J. A. Stewart, late Minister of Railways, and shown to be based on entirely wrong promises. In brief, the occupants of the treasury benches are not always able to fight their own battles, let alone extend help to each other. And as for the Premier:

"Gone are the days when his heart was young and gay,
Those good old days when he followed Laurier.
Now he's in power and the arrows round him sing;
There's no one needs more pity than McKenzie (King."

Interest in the railway rates question, now before a special committee, received new impetus with the appearance as a witness of E. W. Beatty, President of the C.P.R. Mr. Beatty, in a long, prepared statement informed the members in effect that the country must cease to hope for relief from the burden of high freight rates in the event of the government allowing the schedules of the Crow's Nest Pass agreement of 1897 to come into effect again. The effect of other concurrent rate reductions would be "too serious to contemplate." The C.P.R. is prepared, however, said its President, to put into effect reductions on basic commodities which would be of greater benefit to the country generally than resumption of the Crow's Nest agreement. All of which is a further blow to the ambitions of western Progressives. Mr. Beatty's statement strengthens a general impression that the demands of the Progressives in this regard would serve a sectional interest at the expense of the Dominion generally. It may be accepted, indeed, that there is small chance of the Crow's Nest agreement, with its special low rates on a certain small list of commodities, being restored, and so, denied the wheat board in the compulsory form asked for, the Progressives have little left to hope for from the government. With the budget proposals reflecting the will of protectionist Quebec, there remains no substantial basis for the Liberal-Progressive alliance which the government at the beginning met the 14th Parliament.

An attempt of the government to sequester a bit of patronage and dodge the jurisdiction of the Civil Service Commission was frustrated by the Senate, when the Upper House cut out of the Defence Bill a clause giving the cabinet power to place in new positions such officials as were affected by the amalgamation of the militia, naval and air departments. The Senators also rejected the proposal for three deputy ministers, amending the plan to provide for but one deputy and a comptroller of finance. "We're always saving the country money," remarked Senator Fowler.

The House dividing on non-party lines, has declared against restoring the embargo against oleomargarine. Existing legislation expires on August 31st, and there is some conjecture as to who will take the necessary action. Hon. W. R. Motherwell, Minister of Agriculture, whose department the matter chiefly concerns, spoke and voted against allowing importation and manufacture of the butter substitute, while Hon. W. S. Fielding, took the opposite view on the ground of personal liberty. The Finance Minister also took occasion to read his colleague a lecture on his treatment of the question, and remarked that he feared Mr. Motherwell was a "free leader in everything but oleomargarine."

During discussion of Public Work estimates, R. B. Hanson, Conservative member for York-Sunbury, caused a fluttering on the government side by allusion to pre-election promises made by the Liberal candidate in Charlotte, N.B. Mr. Hanson said that W. F. Todd, who was defeated by R. W. Grimmer, Conservative, had carried on a campaign throughout the island parishes, and promised a wharf or breakwater at practically every fishing hamlet in the country. Mr. Hanson described it as "a straight bid for votes on a territorial basis," and challenged by Hon. A. B. Copp, Secretary of State, to name instances, quoted specific cases at Castalia, Welshpool, Deer Island and Seeley Basin. He added that no attempt had been made by the Liberal Government to implement these promises, some of which no doubt had been made in good faith.

OTTAWA SEEKING BETTER RATE FOR WESTERN FREIGHT

Motherwell Says Government Trying to Improve on C.N.P. Agreement

Calgary, May 27.—That the government is trying to get "something better than the Crow's Nest Agreement" to meet the present conditions caused by freight rates in Western Canada, is the statement of Hon. W. R. Motherwell, minister of agriculture, in a letter to the Calgary Board of Trade. Mr. Motherwell's letter was written on receipt of the resolution of the board calling for the return of the Crow's Nest agreement. The minister says:

"Your wire of May 18 duly to hand and note the position taken by your board in connection with the Crow's Nest Pass agreement.

"Let me assure you that the intention of the government is to try to get something better to meet present conditions than the Crow's Nest agreement would do. There are many commodities that are not affected by the agreement which are vital to our western provinces at this time. Hence the need for further inquiry into the whole situation."

BOTH CIGARETTE SMOKERS AND CIGARETTE MAKERS WORRIED INDIVIDUALS

Montreal, May 28.—While cigarette smokers groaned as they counted out 22 and 23 cents for their smokes on Saturday, officials of the Imperial Tobacco company were also groaning from behind a mountain of figure laden papers, vainly attempting to solve the riddle—"how much must we charge?"

Friday night the company threw up its hands in despair without having settled their worries. Their plight is summed up in the following statement issued by P. R. Walters, vice-president:

"Until such time as the Imperial Tobacco company is in a position to issue their new price list, they have advanced the price of their cigarettes by the increased duty of $3.00 per thousand and plus the increased sales tax of 1½ per cent. A similar advance will no doubt be made by the retail trade until prices are properly adjusted."

FROM AN ENGLISH PLAY

"You know it will mean the divorce court."

"What if it does? I know the divorce court isn't as select as it used to be, but, after all, one mustn't be snobbish."

"Thunderclap" Production Has Personnel of Much Distinction

Manager Brewerton of the Rex Theatre, who has arranged with the well-known motion picture producer, William Fox, for the showing of "Thunderclap," calls attention to the remarkable personnel of the production staff and cast for this stupendous photo-drama. Mary Carr, of "Over the Hill" fame, heads the cast, with Violet Mersereau, J. Barney Sherry, Paul Willis, Jack Daly Murphy, Walter McEwan, Maude Hill, Hal Clarendon, Joe Burke and Thomas McCann, supporting. The story was adapted by the well known scenarist, Paul H. Sloane, with Richard Stanton as the director.

New York newspapers say that two of the most spectacular scenes ever registered on the screen take place in "Thunderclap." One is the hair-raising passage of the hero down a tempestuous rapids on the top of a board, and the other is the race track scene. These two scenes alone would make this picture more than worth while, and judging from the success that this super-photoplay enjoyed on Broadway at the Central Theatre, New York, it may be deduced that there are elements of appeal for every class of picture-goer.

Mary Carr is again given a great mother role. Without the use of her limbs or body, unable to open her mouth, playing the part of a paralytic, she again scores a great hit. Her acting has to be put over by facial expression alone, and she once more proves herself worthy of her reputation.

The story deals with sporting life and the gaming tables, and "Thunderclap" takes its title from the race horse upon whose victory the fortunes of the hero and the heroine rest. Plots and counterplots are set in motion to keep "Thunderclap" from winning, but with the aid of a good jockey, the crooked gambler's efforts are frustrated. The beginning of the picture discloses the suffering wife anxious to bring her child home from the convent and her husband, the child's stepfather, refusing to have the "brat" around the house. In a moment of desperation, the mother threatens to disclose the crooked methods of the gaming-house keeper if he does not grant her wish. The gambler strikes her, and she becomes paralyzed from the shock, losing the use of her limbs and her speech. An orphan boy drifts into the employ of the gambler, who is now running a fashionable establishment in a large city, and brings with him his horse, "Thunderclap."

The racer was bequeathed to the boy by the only kind employer he ever had. The gambler, finding his business falling off ruinously, sends for his beautiful young daughter to act as hostess of the gaming-house. Complications arise, and in desperation the gambler promises his daughter in marriage to an old reprobate with the understanding that $40,000 is to be paid to the stepfather within a specified time. From then on the picture works up to its great climax, a climax as unusual as it is thrilling. "Thunderclap" comes to the Rex Theatre, Friday and Saturday.

New and Old Customers Welcome

The Cost of Living

ADVERTISING turns over stocks rapidly, and therefore multiplies profits. This means that prices in a shop which advertises can be short rather than long.

Of this you may be sure: Prices in a shop which advertises are not MORE than in a shop which does not advertise. The chances are that they are oftentimes lower.

This, also, is generally true: You will find better goods, better values and better service in those shops which turn over their stocks rapidly. This means, as a general thing, shops which advertise.

A NOTE TO MERCHANTS

Advertising costs you nothing—it is paid for by the profits on increased sales.

Advertising is easy—it is simply saying in writing what you say to the customers in your shop. Turn ouer stocks quickly, if you would make more money.
